Structuralism In Literature:

Structuralism in Literature Robert Scholes, Robert E. Scholes, 1974-01-01 The nature and leading exponents of the structuralist movement are considered as well as the structural poetics of fiction and drama

Structuralist Poetics Jonathan Culler, 2023-01-06 A work of technical skill as well as outstanding literary merit Structuralist Poetics was awarded the 1975 James Russell Lowell Prize of the Modern Language Association It was during the writing of this book that Culler developed his now famous and remarkably complex theory of poetics and narrative and while never a populariser he nonetheless makes it crystal clear within these pages

The Poverty of Structuralism Leonard Jackson, 2014-09-11 The Poverty of Structuralism is the first in a sequence of volumes which examine in turn the basic ideas of Saussure Marx and Freud and analyse the way in which they have been developed and applied to art culture and modern textual theory The text offers a critical introduction to the structuralist foundations of modern literary theory It gives an account of the way such foundations have been developed twisted and distorted to become part of the language that contemporary literary and cultural theoreticians use It also addresses some of the fundamental issues about language and society that are presupposed by the often difficult language of modern literary and cultural theory

The Fate of Meaning John K. Sheriff, 2014-07-14 This succinct and lucid study examines the thought of the philosopher Charles Peirce as it applies to literary theory and shows that his concept of the sign can give us a fresh understanding of literary art and criticism John Sheriff analyzes the treatment of determinate meaning and contends that as long as we cling to a notion of language that begins with Saussure's dyadic definition of signs meaning cannot be treated as such any more than can essence or presence Asserting that Peirce's less familiar position offers a way out of this difficulty Sheriff first discusses the Saussurean based theory of meaning and then argues for the advantages of the radically different triadic theory developed by Peirce Part One of the work reviews and critiques the treatment of meaning in works by Jonathan Culler Tzvetan Todorov Stanley Fish Roland Barthes and Jacques Derrida among others The focus of this section is on the treatment of meaning in structural and post structural theories and their common basis in Saussurean linguistics Part Two provides a readable introduction to Peirce's general theory of signs and develops comprehensively the implications of his semiotic The substitution of his theory for Saussure's opens our eyes to new and cogent answers to many questions relevant to the meaning of texts Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Power and Literature Florin Oprescu, 2018-08-21 At the core of this book lies the relation between Power as socio political phenomenon and the novel as literary discourse It shows that in a society facing the excess of power in its various forms novelistic fiction mediates knowledge about societal Power structures and uses specific strategies to subvert and denounce them The first part of the study is theoretical it presents some of the most prominent theories of Power from Plato Machiavelli Nietzsche to Weber Dahl Lukes Parsons Bourdieu or Foucault After offering a critical approach to the concepts of Power defined in the social political and philosophical fields it articulates the relations of Power imprinted in literary discourse within a typology of four categories In the second part of the book this taxonomy of Power is applied to four key novels in the context of Romanian literary crossroads showing how novelistic fiction not only assume a critical and subversive position against the excess of Power but also unveils our fragility when experiencing History
