**The Oxford Handbook of Event Structure** Robert Truswell, 2019-03-26 This handbook deals with research into the nature of events and how we use language to describe events The study of event structure over the past 60 years has been one of the most successful areas of lexical semantics uniting insights from morphology and syntax lexical and compositional semantics cognitive science and artificial intelligence to develop insightful theories of events and event descriptions This volume provides accessible introductions to major topics and ongoing debates in event structure research exploring what events are how we perceive them how we reason with them and the role they play in the organization of grammar and discourse The chapters are divided into four parts the first covers metaphysical issues related to events the second is concerned with the relationship between event structure and grammar the third is a series of crosslinguistic case studies and the fourth deals with links to cognitive science and artificial intelligence more broadly The book is strongly interdisciplinary in nature with insights from linguistics philosophy psychology cognitive science and computer science and will appeal to a wide range of researchers and students from advanced undergraduate level upwards

**Lexical Semantics, Syntax, and Event Structure** Malka Rappaport Hovav, Edit Doron, Ivy Sichel, 2010 This book focuses on the linguistic representation of temporality in the verbal domain and its interaction with the syntax and semantics of verbs arguments and modifiers Leading scholars explore the division of labour between syntax compositional semantics and lexical semantics in the encoding of event structure encompassing event participants and the temporal properties associated with events They examine the interface between event structure and the systems with which it interacts including the interface between event structure and the syntactic realization of arguments and modifiers Deploying a variety of frameworks and theoretical perspectives they consider central issues and questions in the field among them whether argument structure is specified in the lexical entries of verbs or syntactically constructed so that syntactic position determines thematic status whether the hierarchical structure evidenced in argument structure find parallels in sign language should the relation between members of an alternation pair such as the causative inchoative alternation be understood lexically or derivationally and the role of syntactic category in determining the configuration of argument structure
