countless hours interviewing and observing some of the greatest teachers at work and after everything I found some tendencies that seem to bring about the most effective results with the least effort The order in which the strategies are covered is not significant because any strategy alone will produce immediate results Use any one of these techniques and your success as a teacher grows geometrically but use any combination and your success grows exponentially After reading this manual you will be armed with the proper strategies to help you get the most out of what you do and get the results you've always wanted You are at this point of power to affect and change people's lives and you now have tools in which to do it more effectively and efficiently Build those bridges develop those relationships and use these strategies to become unforgettable unstoppable and incredible
