## **The Search For Identity:**

*The Search for Identity* Winifred A. Mellinger, 1962      *The Identity Crisis* Monica Wicker-Ramsay, 2017-10-25

**Postwar America; the Search for Identity** Donald G. Baker, Charles H. Sheldon, 1969      **The Search for Identity** John Edward Wilz, 1973      **On Shame And The Search For Identity** Lynd, Helen Merrell, 2013-08-21 First published in 1999 This is Volume XIII of twenty one of the Individual Differences Psychology series Written in 1958 this study looks at the areas of shame and guilt in the search for identity      *Collective Search for Identity* Orrin Edgar Klapp, 1969 From the Preface This book is about identity seeking movements of modern society It deals with such things as fashions fads poses ritual cultic movements recreation heroes and celebrities and crusades from the point of view of what they tell about the identity search of a mass society My view briefly is that a collective identity search is symptomatic of the fact that some modern social systems deprive people of psychological payoffs the lack of which expressed by terms such as alienation meaninglessness identity problem motivates a mass groping for activities and symbols with which to restore or find new identity People grope because they do not really know what is wrong especially when there is physical prosperity yet a sense of being cheated When mass movements become concerned with identity they develop certain characteristics such as ego screaming concern with costume and self ornamentation style rebellion concern with emotional gestures rather than practical effects adulation of heroes cultism and the like with which I shall deal Such signs show that ordinary economic and political solutions are not what is wanted People feel the futility and irrelevance of such measures yet do not know quite what else to do      **Far From the Tree** Andrew Solomon, 2012 Solomon tells the stories of parents who not only learn to deal with their exceptional children but also find profound meaning in doing so      *The Search for Existential Identity* James F. T. Bugental, 1984      **Identity and Capitalism** Marie Moran, 2014-11-13 This is a splendid book that dispels myths about identity and presents a cultural materialist case for the study of such keywords and their preoccupations under the hegemony of neoliberal capitalism Professor Jim McGuigan Loughborough University Identity particularly as it is elaborated in the associated categories of personal and social identity is a relatively novel concept in western thought politics and culture The explosion of interest in the notion of identity across popular political and academic domains of practice since the 1960s does not represent the simple popularisation of an older term as is widely assumed but rather the invention of an idea Identity and Capitalism explores the emergence and evolution of the idea of identity in the cultural political and social contexts of contemporary capitalist societies Against the common supposition that identity always mattered this book shows that what we now think of routinely as personal identity actually only emerged with the explosion of consumption in the late twentieth century It also makes the case that what we now think of as different social and political identities only came to be framed as such with the emergence of identity politics and new social movements in the political landscapes of capitalist societies in the 60s and 70s Marie Moran provides an important new exploration of the articulation of the idea of identity to

the social logic of capitalism from the organised capitalism of the mid twentieth century up to and including the neoliberal capitalism that prevails today Drawing on the work of Raymond Williams the cultural materialist approach developed here provides an original means of addressing the political debates about the value of identity in contemporary capitalist societies

**Mirrors & Masks** Anselm L. Strauss, 2017 Identity as a concept is as elusive as everyone's sense of his own personal identity It is connected with appraisals made by oneself and by others Each person sees himself mirrored in the judgments of others The masks he presents to the world are fashioned upon his anticipations of judgments In *Mirrors and Masks* Anselm Strauss uses the notion of identity to organize materials and thoughts about certain aspects of problems traditionally intriguing to social psychologists The problems Strauss considers to be intriguing traditionally are those encountered when studying group membership motivation personality development and social interaction The topics covered include the basic importance of language for human action and identity the perpetual indeterminacy of identities in constantly changing social contexts the symbolic and developmental character of human interaction the theme of identity as it affects adult behavior relations between generations and their role in personality development and the symbolic character of membership in groups By focusing on symbolic behavior with an emphasis on social organization Strauss presents a fruitful systematic perspective from which to view traditional problems of social psychology He opens up new areas of thought and associates matters that are not ordinarily considered to be related Strauss believes that psychiatrists and psychologists underestimate immensely the influence of social organization upon individual behavior and individual structure and that sociologists whose major concern is with social organization should employ some kind of social psychology in their research *Mirrors and Masks* shows that the fusion of theoretical approaches benefits the analyses of many scholars This fascinating work should be read by sociologists anthropologists psychologists and psychiatrists

**Seeking Identity** Raymond A. Belliotti, 1995 Outlining the unwritten but deeply ingrained system of moral codes that Italian immigrants brought to America Belliotti examines that system in relation to moral theorists who argue we owe the most to people close to us and those who contend we must attach no special weight to our own interests when determining proper moral action He also investigates philosophical historical sociological and political aspects of government authority examines conflicting images of Italian immigrant women and analyzes war and pacifism

*In Search of a National Identity* Ellen M. Schnepel, 2004 Guadeloupe as well as Martinique Guyane and Reunion is one of the former colonies of France that chose to remain tied to the mother country rather than seek independence following World War II Through the 1946 law of political assimilation these territories became *départements d'outre mer* Departmentalization however failed to bring about full social and economic equality As political integration increased economic and commercial dependency on the metropole the pressure of homogenization to the French model precipitated the loss of cultural autonomy In the 1960s an anticolonialist movement pushing for a change in political status appeared in Guadeloupe The nationalist movement was rejuvenated in the 1970s by the selection of the Creole language as a symbol of

political and cultural resistance to assimilation conduit and container of an alternate ideology and emblem of Guadeloupean identity and island specificity With this resurgence of interest in kreyòl a proliferation of associations groups and individuals became actively engaged in research and efforts to standardize and develop the language and to popularize its use in new public domains This case study of the mouvement kreòl in Guadeloupe analyzes three key sites of conflict the school the media and the political process in relation to the local regional and national levels that structure these arenas While the monograph is important in illuminating a new concept of identity for the region the work singles out key differences between the Creole movement in Guadeloupe and its counterpoint kreòl in Martinique Both succeeded the earlier formulations of difference in the French Antilles nègritude and antillanité The study is especially relevant in light of the current and very polemical debate concerning the introduction of an exam for Creole the CAPES kreòl in 2001 for secondary school teachers in France and in the four overseas departments This educational directive was a response to the demand that Creole receive equal status with the other regional languages e.g. Occitan Breton Basque in France
