Strosa Light:

Strosa Light. Illustrated by Gareth Floyd Ray Pope,1965 **The American Light-house Guide: with Sailing**
Directions, for the Use of the Mariner ... Robert Mills,1845 A Landscape with Dragons Michael D. O'Brien,2011-05-24
The Harry Potter series of books and movies are wildly popular Many Christians see the books as largely if not entirely
harmless Others regard them as dangerous and misleading In his book A Landscape with Dragons Harry Potter critic Michael
O'Brien examines contemporary children s literature and finds it spiritually and morally wanting His analysis written before
the rise of the popular Potter books and films anticipates many of the problems Harry Potter critics point to A Landscape
with Dragons is a controversial yet thoughtful study of what millions of young people are reading and the possible impact
such reading may have on them In this study of the pagan invasion of children s culture O'Brien the father of six describes
his own coming to terms with the effect it has had on his family and on most families in Western society His analysis of the
degeneration of books films and videos for the young is incisive and detailed Yet his approach is not simply critical for he
suggests a number of remedies including several tools of discernment for parents and teachers in assessing the moral
content and spiritual impact of this insidious revolution In doing so he points the way to rediscovery of time tested sources
and to new developments in Christian culture If you have ever wondered why a certain children s book or film made you feel
uneasy but you couldn't figure out why this book is just what you need This completely revised much expanded second
edition also includes a very substantial recommended reading list of over 1 000 books for kindergarten through highschool
