Being-Centred Responsible Leadership Mias de Klerk,2026-02-23 Responsible leadership is one of the most considered topics in the leadership discourse as well as in the discourse on the Sustainable Development Goals Although there is ample literature on what responsible leadership entails and the characteristics of responsible leaders there is a scarcity in literature on how to develop and become a more responsible person and leader Becoming a responsible leader does not happen simply by having good intentions following a recipe with a few simplistic steps or by attending a development programme The world of work and its associated challenges are far too fierce and complex for this to happen Instead developing into a responsible leader requires intensive and transformative development work on ourselves at the core of our being and as a holistic person As a practical yet science based manuscript the book presents a systemic pathway that could enable individuals to develop into responsible leaders
