Watts,2020-09-24 Modern Civilization Watts maintains is in a state of chaos because its spiritual leadership has lost effective knowledge of man s true nature Neither philosophy nor religion today gives us the consciousness that at the deepest center of our being exists an eternal reality which in the West is called God Yet only from this realization come the serenity and spiritual power necessary for a stable and creative society One of the most influential of Alan Watts s early works The Supreme Identity examines the reality of civilization s deteriorated spiritual state and offers solutions through a rigorous theological discussion on Eastern metaphysic and the Christian religion By examining the minute details of theological issues Watts challenges readers to reassess the essences of religions that before seemed so familiar and to perceive Vedantic oneness as a meeting ground of all things good and evil In addressing how religious institutions fail to provide the wisdom or power necessary to cope with the modern condition Watts confidently seeks the truth of the human existence and the divine continuum In this eye opening account of metaphysical blindness in the West Watts accents this dense exploration of religious philosophy with wry wit that will engage inquiring minds in search of spiritual power and wisdom **A Physicist Examines Hope in the Resurrection** John F. Wilson,2016-12-22 John Polkinghorne ordained member of the Royal Society past President of Queen s College Cambridge Knight Commander of the Order of the British Empire 2002 Templeton Prize winner theoretical physicist and theologian writes in breathless style to unfold core Christian doctrine in dialogue with science His work deftly addresses how one would interpret and commend Christian faith in the contemporary world as he elucidates the key topics in the dialogue of religion with science Polkinghorne s work addresses the hope Christians have present and future in the faithfulness of a loving God who stands alongside them today and for all eternity Eschatological hope enables and empowers Christian life and emerges in God s resurrection of Jesus from the horrific crucifixion Polkinghorne ably supports his thesis with a strong argument for the resurrection built on the kenotic acts of God His thesis sees Christian eschatology as the advent of hope the heart of faith In Christian eschatology as argued by Polkinhorne and supported in the work of Jurgen Moltmann and Nicholas T Wright Christ s presence is not some far off event but present reality *The Apocalypse, with a comm. and an intr. by E.
