This is a valuable resource for researchers in the bioeconomy, circular economy, agricultural and environmental economics, as well as policymakers looking to make informed decisions and contribute to sustainable practices. The Circular Economy

Mika Sillanpää, Chaker Ncibi, 2019-08-01 The Circular Economy Case Studies about the Transition from the Linear Economy explores examples of the circular economy in action. Unlike other books that provide narrow perceptions of wide ranging and highly interconnected paradigms such as supply chains, recycling, businesses models and waste management, this book provides a comprehensive overview of the circular economy from various perspectives. Its unique insights into the approaches, methods and tools that enable people to make the transformation to a circular economy show how recent research trends and attitudes have moved beyond the call to arms approach to a level of maturity that requires sound scientific thinking. *Intelligence-Driven Circular Economy*

Azzam Hannon, Abdullah Mahmood, 2025-07-23 The book provides a groundbreaking examination of how artificial intelligence (AI) can be utilized to contribute towards a sustainable future. This book delves into the intricate relationship between technology, economy and society, providing a comprehensive framework for understanding the circular economy as a holistic approach to sustainable development. This book aims to offer a comprehensive reference work and coverage of the role of Artificial Intelligence and other advanced digital technologies in the circular economy and resource regeneration towards achieving the United Nations' 17 sustainable development goals. This book is mainly aimed at academics and researchers who will find in it the knowledge of the support of technology and its contribution to the circular economy, challenges, applications and solutions to improve. Moreover, this book is aimed at management industry experts, governments and policymakers, whereby the book contains helpful examples from practice and applied recommendations. This book is for anyone interested in shaping a sustainable and resilient future. It provides diverse topics for raising awareness about the power of technology in promoting social well being and economic prosperity. *Circular of Information*
