Conversations with Hala Robert Temple Frost,2018-10-02 You will enjoy getting to know Hala as I have after speaking with her through a channel Some dismiss the concept of a person called a channel communicating with an entity existing in a higher dimension than our third dimension It was proven to me that Hala is a real entity in a higher dimension who prefers to be thought of as a Spiritual Being not a Soul I asked Hala about my mother This led her to see my mother s older sister who

nursed me as my mother could not This was the first revelation that confirmed to me that Hala is a real higher Spiritual Dimension entity In response to more questions Hala discusses three more revelations that could well upset all the world s religious beliefs Read this short book to experience your own reactions because Hala wants everyone to be happy and loving Learn why this is important to her Writes the author Depending on your upbringing and adherence to commonly accepted traditions you may find these conversations with Hala equally challenging Her comments suggest the truth of a new spirituality As the old saying goes What s true for me may not be true for you But if you read and experience a similar resonance I hope you will join me in this Knowing **The Theosophical Movement** ,2002 **Abū'l-Barakāt**

more analytical readings Features a timeline of the entire period a map indicating the locations associated with philosophers included in this volume an annotated guide to further reading on each of these traditions and an index of names and of subjects that appear in the volume Given its relevance for approaching the medieval world on its own terms as well as for understanding the foundations of our own world the volume is intended not only as an academic textbook and reference work but as a readable and informative guide for the general reader who wishes to understand these great philosophical and religious traditions that continue to influence our world today or perhaps to simply glean the wisdom from these enduring texts This is a culturally inclusive title which seeks to provide the reader with a rich varied and comprehensive insight into the entirety of the medieval philosophical world
