The Social Worlds of Nineteenth-Century Chamber Music Marie Sumner Lott, 2015-06-15 Music played an important role in the social life of nineteenth century Europe and music in the home provided a convenient way to entertain and communicate among friends and colleagues String chamber music in particular fostered social interactions that helped build communities within communities Marie Sumner Lott examines the music available to musical consumers in the nineteenth century and what that music tells us about their tastes priorities and activities Her social history of chamber music performance places the works of canonic composers such as Schubert Brahms and Dvořák in relation to lesser known but influential peers The book explores the dynamic relationships among the active agents involved in the creation of Romantic music and shows how each influenced the others choices in a rich collaborative environment In addition to documenting the ways companies acquired and marketed sheet music Sumner Lott reveals how the publication and performance of chamber music differed from that of ephemeral piano and song genres or more monumental orchestral and operatic works Several distinct niche markets existed within the audience for chamber music and composers created new musical works for their use and enjoyment Insightful and groundbreaking *The Social Worlds of Nineteenth Century Chamber Music* revises prevailing views of middle class influence on nineteenth century musical style and presents new methods for interpreting the meanings of musical works for musicians both past and present

A Sound Mind Paul Morley, 2020-11-10 For readers of *Mozart in the Jungle* and *Year of Wonder* a new history of and guide to classical music Paul Morley made his name as a journalist covering the rock and pop of the 1970s and 1980s But as his career progressed he found himself drawn toward developing technologies streaming platforms and increasingly the music from the past that streaming services now made available Suddenly able to access every piece Mozart or Bach had ever written and to curate playlists that worked with these musicians themes across different performers composers and eras he began to understand classical music in a whole new way and to believe that it was music at its most dramatic and revealing In *A Sound Mind* Morley takes readers along on his journey into the history and future of classical music His descriptions explanations and guidance make this seemingly arcane genre more friendly to listeners and show the music's power depth and timeless beauty In Morley's capable hands the history of the classical genre is shown to be the history of all music with these long ago pieces influencing everyone from jazz greats to punk rockers and the pop musicians of today

String quartets nos. 1 and 2 Béla Bartók, 2004-01-01 Acclaimed as the most important quartets since Beethoven the six string quartets of Bela Bartok offer a summation of the composer's compositional style and development and they constitute one of the great monuments of twentieth century music This outstanding new volume unites the first two of Bartok's chamber masterpieces The stirring first quartet written in 1908 captures the composer's great stylistic rebirth as the intense Romanticism of the opening movement gives way to a propulsive finale reflecting the composer's growing interest in Hungarian folk music The

second quartet written during World War I finds Bartok's creativity unimpeded by wartime privations. The three movement work echoes the meditative qualities of the first quartet in its outer movements but its lively central movement suggests the traditional music of North Africa. A combination of boldly disparate influences it remains a work of astonishing force and originality.
