Wild Peninsula:

Hometown Anny Scoones, 2013-04-16 Join beloved storyteller Anny Scoones as she sets out to discover the quaint and quirky charms of Victoria BC Not just a book of facts Hometown is a gentle stroll through a diverse region with a fascinating and layered history Observe pause ponder and have what Anny likes to call a little think on the various characteristics and personalities of these areas Consider not only how public art beach creatures monuments heritage and historical features create a neighbourhood and contribute to a larger city but also how they make us feel how they move us Illustrated with 120 original watercolours by acclaimed artist Robert Amos and featuring unique poems by Victoria's poet laureate Janet Rogers

Hometown Out and About in Victoria's Neighbourhoods presents Canada's most livable city as the locals see it **Biennial Report** Indiana. Baier, 2023-07-25 The Endangered Species Act of 1973 ESA is one of the most cherished and reviled laws ever passed It mandates protection and preservation of all the nation's species and biodiversity whatever the cost It has been a lightning rod for controversy and conflicts between industry business and environmentalists The year 2023 marks the 50th anniversary of this law and provides an opportunity for a measured and thorough evaluation thereof We cannot know today's challenges and opportunities without understanding their histories This book is the most comprehensive history of the ESA ever published and the first to consider the entire history of the law from all angles in a single volume The history of the ESA has been one of increasing impact complexity and controversy In 1978 the Supreme Court declared that Congress intended for the U S government to save all species at any cost and thereafter application of the ESA became steadily more controversial as seen in the example of the northern spotted owl and the timber wars in the Pacific Northwest in the late 1980s and early 90s and then everywhere as the ESA became a political football in the highly partisan environment of the late 1990s and amendments to the law ceased This book is not only a history but a call to action It will take more conservation more funding and more innovative solutions if we are to save our wildlife and biodiversity It will take the engagement to every American to muster the collective will to meet this challenge The hope of this book is that we will be able to look back and say that we accomplished more in the second 50 years of the ESA than we did in the first **Wild New Zealand** Les Molloy, Sue Miller, 1994 photographs by Gerald Cubitt Once part of an ancient supercontinent New Zealand was isolated by the sea to form its present day raft of islands stretching from the sub tropical to the sub Antarctic This superbly illustrated book offers a tour of this diverse wild land of the long white cloud capturing in text and over 400 full color photographs New Zealand's untamed areas and the wildlife that inhabits them The journey begins in the rugged

northern peninsula with its rocky coastline and impressive stands of kauri forests continues through the length and breadth of North and South Islands and then leaves the mainland for the islands beyond Much of New Zealand's beauty is preserved in an extensive system of national parks within which the natural diversity is almost endless High peaks and meadows of alpine flowers give way to dense rainforest Geysers and hot springs bubble and fume in the thermal regions Long sleek beaches and quiet bays offer peace and seclusion In this land are found creatures that exist nowhere else on earth the shy kiwi that makes its home in the dense beech forests the many rare birds that have a last refuge in the offshore islands and the tuatara a reptile that has existed since the age of dinosaurs and now clings precariously to survival Wild New Zealand also offers a view of the country's ancient origins its cultural heritage and the conservation efforts that seek to preserve the awesome beauty of this wondrous land Gerald Cubitt is one of the world's leading natural history photographers and is particularly well known for his sensitive portrayals of the wildlife and wilderness areas of Africa and South east Asia Specially commissioned to provide the photographs for Wild New Zealand he and his wife Janet travelled extensively through the islands seeking to capture the astonishing variety of landscapes and the unique fauna and flora to be found there He is deeply committed to providing an evocative record of the natural world that will encourage awareness of our environment's increasing fragility
