collaborative relationship between employers and employees Technical services personnel in particular are subject to burnout as their operations are frequently understaffed and they face competing demands of serving both libraries physical needs and supporting electronic and digital resources Management in a remote work environment has challenges that are not present in an on site operation Communication setting expectations and documentation and training take on added significance when WFH as does accountability Our book addresses these aspects of management through a WFH lens The book also covers the return to work after a shift to remote whether it is completely on site hybrid or some combination Normalization determining staffing levels employee accommodations and an adjustment period are discussed Since most technical services personnel have not previously had to pivot to remote on short notice and for an extended period the book addresses these issues for libraries as they make decisions about repopulating their workplaces [Addressing New Demands and Challenges Through Flexible Working Hours](#) Gallego-Gomez, Cristina,2026-01-14 Flexible working hours have emerged as a crucial strategy for organizations navigating today s evolving work environment As businesses face new demands traditional nine to five schedules often fall short By offering employees more control over when they work companies can enhance job satisfaction and respond more effectively to dynamic market conditions Addressing these modern challenges through flexible scheduling not only supports a healthier work life balance but also positions organizations to thrive in an increasingly competitive and unpredictable landscape Addressing New Demands and Challenges Through Flexible Working Hours explores the new opportunities and challenges of flexible work hours It addresses the demands for job satisfaction and work like balance Covering topics such as collaboration systems humanistic leadership and workforce integration this book is an excellent resource for business leaders business professionals graduate students and more [To the Top](#) Jenna C.
