The Dingo 5:

The Dingo Debate Bradley Smith, 2015-08-03 The Dingo Debate explores the intriguing and relatively unknown story of Australia's most controversial animal the dingo Throughout its existence the dingo has been shaped by its interactions with human societies With this as a central theme the book traces the story of the dingo from its beginnings as a semi domesticated wild dog in South east Asia to its current status as a wild Australian native animal under threat of extinction It describes how dingoes made their way to Australia their subsequent relationship with Indigenous Australians their successful adaptation to the Australian landscape and their constant battle against the agricultural industry During these events the dingo has demonstrated an unparalleled intelligence and adaptable nature seen in few species The book concludes with a discussion of what the future of the dingo in Australia might look like what we can learn from our past relationship with dingoes and how this can help to allow a peaceful co existence The Dingo Debate reveals the real dingo beneath the popular stereotypes providing an account of the dingo's behaviour ecology impacts and management according to scientific and scholarly evidence rather than hearsay This book will appeal to anyone with an interest in Australian natural history wild canids and the relationship between humans and carnivores

The Dingo Hunter Laurie Corbett, 2025-03-21 Laurie Corbett was born in Castlemaine Victoria in 1941 and spent much of his early life catching wildlife to supplement the family diet and thus developed an understanding and love of the bush and its fauna He joined the CSIRO Division of Wildlife Research to study dingoes and their prey in central Australia 1968-75 and later 1980-96 in Kakadu National Park Intervening those years he studied Scottish wildcats and feral cats in Aberdeenshire and the Outer Hebrides At that time he regularly returned home for Christmas where en route he discovered dingoes in Thailand and other South east Asian countries and subsequently made regular visits to study them resulting in a Whitley Award for his 1995 book *The Dingo in Australia and Asia* In 1997 he led ecological surveys at Bradshaw Field Training Area and at Christmas Island and concurrently was a member of IUCN's Canid Specialist Group with field work in Indonesia In 2007 he formed his own consulting company to provide dingo management advice at mine sites in deserts throughout Australia Throughout this journey he met an incredible array of characters and experienced many unusual events most pleasant but others not so This illustrated narrative provides research data in conjunction with the day to day joy frustration and danger associated with working in outback Australia Similarly in relatively isolated regions of Thailand Laos and Burma where the English language is not spoken and unintentional non compliance with local customs can have dangerous outcomes
