inscribed with a puzzling symbol began to invade his sleep He encountered a mysterious trio of fellow hikers and heard a vaguely familiar song from the 1970s playing in the background while walking in long lazy circles above the treetops He was driving himself crazy trying to decipher his nighttime visions yet felt drawn to a trail he knew nothing about though all the while wondering if he was simply going mad So he decided that the only way to solve this mystery was to temporarily leave his job sling on a backpack and literally follow the trail to wherever it might lead But after meeting others along the way who shared many aspects of his unusual story the mystery only deepened as each footstep drew them closer to their destination and to a shadowy figure that suddenly haunted their latest round of dreams while on the trail Though he can't claim to be even a novice backpacker Thomas J Prestopnik was easily inspired by others who are and wrote this backpacking novel with a dash of mystery to fulfill his true passion telling a story He is also the author of several other novels including *Nicholas Raven* and *the Wizards Web* a Tolkien inspired epic fantasy in three volumes *Hiram Bingham and the Dream of Gold* Daniel Cohen,2014-03-24 Hiram Bingham was the ideal explorer adventurer handsome rich intelligent brave and tough His life seems like something out of film hero Indiana Jones's exploits in *Raiders of the Lost Ark* The descendant of strong willed missionaries Bingham was born in Hawaii in 1875 At Yale he specialized in South American studies and became a college teacher Gradually the romance of the past took hold of his practical soul Obsessed by the Incas and his dream of uncovering lost cities Bingham initiated an expedition to Peru that would lead him to uncharted territories Using quotations from Bingham's accounts Cohen describes how in 1911 Bingham made the greatest archaeological find of the century the rediscovery of Machu Picchu the abandoned Inca city in the remote Peruvian mountains On later expeditions he discovered other lost cities as he continued his research on the mysteries of Machu Picchu and the last of the Incas despite the physical hardships and dangers of exploration When World War I broke out Bingham learned to fly no small accomplishment in those pioneering days of aviation He eventually joined the American forces in France as head of the largest Allied flight training base in Europe After the war the ambitious and restless Bingham entered a new career politics and was elected senator from Connecticut in a landslide victory But he was too proud an individualist to do well in government Bingham spent the rest of his life writing and lecturing Bingham led the kind of action packed life that most people only dream of Daniel Cohen has written a story sure to capture the imagination of everyone who likes history enlivened by cliff hanging adventures
