The Drowned World:

The Drowned World J. G. Ballard, 1981-04-01 **The Drowned World** J. G. Ballard, 1962 From one of the most powerful and original talents in science fiction comes the story of a new world a strange world where solar radiation fluctuations have melted the polar ice caps flooding the land and raising the temperature of the atmosphere **The Drowned World** J. G. Ballard, 1983 From one of the most powerful and original talents in science fiction comes the story of a new world a strange world where solar radiation fluctuations have melted the polar ice caps flooding the land and raising the temperature of the atmosphere *The Atlantis Diaspora: Survivors of the Drowned World* Alistair Ravenhurst, Ben Van Kerkwyk, 2026-03-09 For thousands of years civilizations across the world have told remarkably similar stories a great catastrophe a drowned world and a handful of survivors who carried the knowledge needed to rebuild human society From the flood myths of ancient Mesopotamia to the legends of lost lands preserved in classical philosophy these stories hint at a forgotten chapter of human history The Atlantis Diaspora explores a bold possibility that behind these ancient traditions lies the memory of a real upheaval at the end of the Ice Age when rising seas and shifting climates destroyed coastal worlds and forced their survivors to scatter across the globe Drawing on archaeology climate science comparative mythology and the study of ancient monuments this book examines how displaced knowledge may have helped shape the earliest civilizations of Egypt Mesopotamia and beyond Rather than searching for a single lost island it investigates the deeper question how did humanity rebuild after a planetary transition that transformed the world itself The Atlantean Diaspora offers a compelling exploration of resilience migration and the hidden inheritance that may still echo through the myths and monuments of the ancient world

THE DROWNED WORLD. BY J.G. BALLARD. J. G. Ballard, 1968 **The Drowned World and the Wind From Nowhere** J. G. Ballard, 1965 *The Drowned World: A Novel (50th Anniversary Edition)* J. G. Ballard, 2012-07-23 A new generation discovers the most original English writer of the last century China Mi ville The Nation Appearing in hardcover in America for the first time this neglected Ballardian masterpiece promises to be a touchstone for environmentalists the world over First published in 1962 J G Ballard s mesmerizing and ferociously imaginative novel not only gained him widespread critical acclaim but also established his reputation as one of the finest writers of a generation The Drowned World imagines a terrifying world in which global warming has melted the ice caps and primordial jungles have overrun a tropical London Set during the year 2145 this novel follows biologist Dr Robert Kearns and his team of scientists as they confront a cityscape in which nature is on the rampage and giant lizards dragonflies and insects fiercely compete for domination Both an unmatched biological mystery and a brilliant retelling of Heart of Darkness complete with a mad white hunter and his hordes of native soldiers this powerful and beautifully clear Brian Aldiss work becomes a thrilling adventure with an oppressive power reminiscent of Conrad Kingsley Amis **The Empire's of J. G. Ballard** David Ian Paddy, 2015-08-25 J G Ballard once declared that the most truly alien planet is Earth and in his science fiction he abandoned the traditional imagery of rocket

ships traveling to distant galaxies to address the otherworldliness of this world The Empires of J G Ballard is the first extensive study of Ballard's critical vision of nation and empire of the political geography of this planet Paddy examines how Ballard's self-perceived status as an outsider and exile the Sheppertonian from Shanghai generated an outlook that celebrated worldliness and condemned parochialism This book brings to light how Ballard wrestled with notions of national identity and speculated upon the social and psychological implications of the post-war transformation of older models of empire into new imperialisms of consumerism and globalization Presenting analyses of Ballard's full body of work with its tales of reverse colonization psychological imperialism the savagery of civilization estranged Englishmen abroad and at home and multinational communities built on crime The Empires of J G Ballard offers a fresh perspective on the fiction of J G Ballard The Empires of J G Ballard An Imagined Geography offers a sustained and highly convincing analysis of the imperial and post-imperial histories and networks that shape and energise Ballard's fictional and non-fictional writings To what extent can Ballard be considered an international writer What happens to our understanding of his post-war science fictions when they are opened up to the language and logics of post-colonialism And what creative and critical roles do the spectres of empire play in Ballard's visions of modernity Paddy follows these and other fascinating lines of enquiry in a study that is not only essential reading for Ballard students and scholars but for anyone interested in the intersections of modern and contemporary literature history and politics Jeanette Baxter Anglia Ruskin University Shanghai made my father Arriving in England after WW2 he was a person of the world who'd witnessed extremes of human experience and remained the outsider observing life from his home in Shepperton 1930s Shanghai Paris of the East was a mix of international sophistication and violence unfettered capitalism and acute poverty American cars martinis and Coca Cola a place marked by death and war It had a profound influence on my father and his imagination Dr Paddy's fascinating book explores my father's fiction within an international context and offers a profound reading of a man who always kept his eyes and mind open to the world Fay Ballard

Ecocritical Geopolitics Elena dell'Agnese, 2021-05-26 What is the role of popular culture in shaping our discourse about the multifaceted system of material things subjects and causal agents that we call environment Ecocritical Geopolitics offers a new theoretical perspective and approach to the analysis of environmental discourse in popular culture It combines ecocritical and critical geopolitical approaches to explore three main themes dystopian visions the relationship between the human post-human and nature and speciesism and carnism The importance of popular culture in the construction of geopolitical discourse is widely recognized From ecocriticism we also appreciate that literature cinema or theatre can offer a mirror of what the individual author wants to communicate about the relationship between the human being and what can be defined as non-human This book provides an analysis of environmental discourses with the theoretical tools of critical geopolitics and the analytical methodology of ecocriticism It develops and disseminates a new scientific approach defined as ecocritical geopolitics to offer an idea of the power of popular culture in the realization of environmental

discourse Referencing sources as diverse as *The Road* *The Shape of Water* *Lady and the Tramp* and TV cooking shows this book will be of great interest to students and scholars of geography environmental studies film studies and environmental humanities

Water Stories in the Anthropocene Angelo Monaco, 2024-10-21 *Water Stories in the Anthropocene* explores how climate change has emerged as a major theme in our daily lives as it poses a myriad of economic scientific political and cultural challenges in the age of the Anthropocene In all its forms and manifestations climate change is primarily a water crisis Water scarcity droughts floods deluge rising sea levels ice melting wetlands loss and sea pollution are among the main threats posed by climate change wreaking havoc on both human and nonhuman forms of life This book engages with instances of extreme events related to water droughts floods deluges and the impact of climate change on some waterbodies seas and wetlands in contemporary Anglophone novels By taking into account a corpus of novels ranging from the various areas of the Anglophone world and thus shuttling between the Global North and the Global South the book reads these novels as water stories This volume pays attention to the pervasive presence of water in all aspects of our lives thus showing how narratives can offer insightful accounts of the present water crisis Alternating between an econarratological perspective reflections on the Anthropocene and the human nonhuman imbrications within the blue humanities the book contributes significantly to the considerations of the imaginative possibilities of these water stories showing how narratives can offer insightful accounts of the present water crisis

[Living with Nature in the Anthropocene](#) Rod Giblett, 2026-01-27 The book brings together philosophy ecoculture and political ecology in a creative critical and timely manner to outline how one might live sacrally with the living earth Drawing on a rich variety of ecocultural texts and from a wide range of philosophers and other thinkers from the ancient Greeks to the present day principally Peter Sloterdijk and occasionally Byung Chul Han the book invites the reader to step along the pathway for living with nature sacrally in the Anthropocene away from the drive for mastery of nature to the desire for and pleasures of mutuality with the living earth Giblett begins with discussions of the four elements the humors the monstrous the sublime slime the uncanny going on through the landscapes of World War I and II mourning melancholy despair cities slums tombs wombs and being born and finally concludes with bio and psycho symbiosis livelihood bioregion and the living earth

A Poetic History of the Oceans Søren Frank, 2022-07-18 What is the ocean's role in human and planetary history How have writers sailors painters scientists historians and philosophers from across time and space poetically envisioned the oceans and depicted human entanglements with the sea In order to answer these questions Søren Frank covers an impressive range of material in *A Poetic History of the Oceans* Greek Roman and Biblical texts an Icelandic Saga Shakespearean drama Jens Munk's logbook 19th century writers such as James Fenimore Cooper Herman Melville Jules Michelet Victor Hugo Jules Verne Jonas Lie and Joseph Conrad as well as their 20th and 21st century heirs like J G Ballard Jens Bjørneboe and Siri Ranva Hjelm Jacobsen *A Poetic History of the Oceans* promotes what Frank labels an amphibian comparative literature and mobilises recent theoretical concepts and

methodological developments in Blue Humanities Blue Ecology and New Materialism to shed new light on well known texts and introduce readers to important but lesser known Scandinavian literary engagements with the sea *Environmental Humanities and the Uncanny* Rod Giblett,2019-04-12 Sigmund Freud s essay The Uncanny is celebrating a century since publication It is arguably his greatest and most fruitful contribution to the study of culture and the environment Environmental Humanities and the Uncanny brings into the open neglected aspects of the uncanny in this famous essay in its centenary year and in the work of those before and after him such as Friedrich Schelling Walter Benjamin E T A Hoffmann and Bram Stoker This book does so by focussing on religion especially at a time and for a world in which some sectors of the monotheisms are in aggressive and sometimes violent contention against those of other monotheisms and even against other sectors within their own monotheism The chapter on Schelling s uncanny argues that monotheisms come out of polytheism and makes the plea for polytheism central to the whole book It enables rethinking the relationships between mythology and monotheistic and polytheistic religions in a culturally and politically liberatory and progressive way Succeeding chapters consider the uncanny cyborg the uncanny and the fictional and the uncanny and the Commonwealth concluding with a chapter on Taoism as a polytheistic religion Building on the author s previous work in Environmental Humanities and Theologies in bringing together theories of religion and the environment this book will be of great interest to students and scholars of the environmental humanities ecocultural studies and religion **Into the Drowned World** Ryan Kamstra,2008-10-01 Into the Drowned World is a visionary work of pop culture apocrypha recited by a nodding benumbed narrator who is perpetually reliving the day before the turn of the millennium At its heart is Kamstra s breathless ecstatic response to Madonna s infamous Drowned World Tour of 2001 which forms both a lyrical and lexical shorthand for our world of foreshortened relations abandoned tenets and an almost forgotten civil society **Extreme Metaphors** J. G. Ballard,2012-09-27 A startling and at times unsettlingly prescient collection of J G Ballard s greatest interviews **The Peacock's Pleasaunce** Eleanor Vere Boyle,1908 **The Cornhill Magazine** William Makepeace Thackeray,1902 Notes and Queries ,1922 **The Drowned World** Gary Owen,2014-03-13 In a drowned world how far will you go to save your own skin In this vicious tale of love revolt and beauty Gary Owen presents a vision of a world divided between citizens and non citizens where friends betray one another and where surfaces matter more than love or kinship *Half hours among the mountains*, by L.T. L. T,1889
