*The Lexus and the Olive Tree* Thomas L. Friedman, 2000 From one of our most perceptive commentators and winner of the National Book Award a comprehensive look at the new world of globalization the international system that more than anything else is shaping world affairs today As the Foreign Affairs columnist for The New York Times Thomas L Friedman has traveled the globe interviewing people from all walks of contemporary life Brazilian peasants in the Amazon rain forest new entrepreneurs in Indonesia Islamic students in Teheran and the financial wizards on Wall Street and in Silicon Valley Now Friedman has drawn on his years on the road to produce an engrossing and original look at globalization Globalization he argues is not just a phenomenon and not just a passing trend It is the international system that replaced the Cold War system the new well greased interconnected system Globalization is the integration of capital technology and information across national borders in a way that is creating a single global market and to some degree a global village Simply put one can't possibly understand the morning news or one's own investments without some grasp of the system Just one example During the Cold War we reached for the hot line between the White House and the Kremlin a symbol that we were all divided but at least the two superpowers were in charge In the era of globalization we reach for the Internet a symbol that we are all connected but nobody is totally in charge With vivid stories and a set of original terms and concepts Friedman offers readers remarkable access to his unique understanding of this new world order and shows us how to see this new system He dramatizes the conflict of the Lexus and the olive tree the tension between the globalization system and ancient forces of culture geography tradition and community He also details the powerful backlash that globalization produces among those who feel brutalized by it and he spells out what we all need to do to keep the system in balance Finding the proper balance between the Lexus and the olive tree is the great drama of the globalization era and the ultimate theme of Friedman's challenging provocative book essential reading for all who care about how the world really works

[The Lexus and the Olive Tree](#) Thomas L. Friedman, 2004-08 As the Foreign Affairs columnist for The New York Times Thomas L Friedman has traveled to the four corners of the globe interviewing people from all walks of contemporary life peasants in the Amazon rain forest new entrepreneurs in Indonesia Islamic students in Teheran and the financial wizards on Wall Street and in Silicon Valley Now Friedman has drawn on his years on the road to produce an engrossing and original look at the new international system that more than anything else is shaping world affairs today globalization His argument can be summarized quite simply Globalization is not just a phenomenon and not just a passing trend It is the international system that replaced the Cold War system Globalization is the integration of capital technology and information across national borders in a way that is creating a single global market and to some degree a global village You cannot understand the morning news or know where to invest your money or think about where the world is going unless you understand this new system which is influencing the domestic policies and international relations of virtually every country in the world today And once you do

[Summary: The Lexus and the Olive Tree](#)  
BusinessNews Publishing, 2013-02-15 The must read summary of Thomas Friedman's book *The Lexus and the Olive Tree* Understanding Globalization This complete summary of the ideas from Thomas Friedman's book *The Lexus and the Olive* shows that globalisation is a fundamentally new and better way to do business As such a new and brighter era of globalisation is just in the process of beginning as all the major marketplaces evolve towards becoming global markets Thomas Friedman uses a metaphor to explain the challenges in this upcoming era of globalisation the human drive for enrichment and the best products represented by the Lexus will sometimes conflict with the natural desire to hold on to what

has traditionally mattered in creating a sense of national and personal identity represented by the Olive Tree The challenge for individuals and nations will be to find and maintain a healthy balance between those two perspectives This summary highlights that globalisation creates the opportunity to sell into vast markets but pure commercial success will only be meaningful if it can be accomplished using means that reflect the individuality and cultural values of the people involved Added value of this summary Save time Understand the key concepts Increase your knowledge To learn more read *The Lexus and the Olive* and discover a challenging and provocative book for all who care about how the world really works *Quicklet On Thomas Friedman's The Lexus and the Olive Tree* Scott Charles, 2012-02-08 ABOUT THE BOOK Someone I worked for once said to me there is a difference between your sphere of influence and your sphere of concern That s the challenge of Thomas Friedman s *The Lexus and the Olive Tree* Understanding Globalization to grasp the awesome power of globalization while still living decidedly local lives At least most of us do I do Or at least I did Mr Friedman has a huge wealth of stories to tell His ability to weave together a stream of anecdotes into circumstantial evidence is impressive Without using charts or graphs or abstract economic concepts he makes a convincing case that Globalization is real It s here to stay and we better get used to it I agree We better get used to it In a relatively short time the world has gone from telegraph to telephone to Internet Combine that with sophisticated supply chains that deliver goods in a matter of hours instead of weeks or months and you have today s market place MEET THE AUTHOR Scott Charles has over a decade s worth of experience as a research analyst Scott spent 11 years at a Fortune 500 company providing research and analytical services to marketing teams product managers R D staff and executives His specialty is doing comprehensive deep dives to support ideation processes identifying business opportunities market analysis and business development EXCERPT FROM THE BOOK Thomas Friedman s object in *The Lexus and the Olive Tree* Understanding Globalization is to provide a framework for understanding globalization as an international system Globalization according to Friedman is the sum total of all the various economic interests of everybody in the world These interests are not bound by national borders or by any particular cultural barrier The simple clarity of the Cold War e g US vs Soviet Union has been replaced by something more complex Everybody is pro globalization to the extent they benefit and against globalization to the extent it damages their interests The conflict therefore is about power who has it who wants it and how much is it worth Sometimes power is measured in money sometimes in political or cultural control Friedman knows all this and his narrative has a few well placed caveats The problem is in sorting out all the various dynamics Friedman doesn t actually set out to sort everything out he attempts to define what is going on in the broadest sense Simply put globalization can be understood as the combination of advanced communications technology and supply chain management The ideas here are nothing new the telegraph and the Erie Canal had the same impact A few years later the telephone and the Panama Canal had an even bigger impact What s new this time around is the enormous interconnectedness of it all The human dynamic tensions have not changed but the speed at which

the interactions happen and the scope is way larger And in this new world individuals have more power Because the Internet changes everything Buy a copy to keep reading *The Lexus and the Olive Tree* Thomas L. *Gastro-Postcolonialism Metaphysical Symbols in Brand Communication* Oya AYAN,2023-09-05 This thesis brings together three topics that we want to search brand communication gastronomy metaphysics After completing my master s degree in marketing communications what I always had in mind was the new trends in advertising communication with the globalization of the 21st century In the design of the advertisement not only the use of elements in communication technologies but also the philosophical background in its fabric attracted my attention In this context I began to sense that there might be mythological approaches in the chemistry of advertising messages that gained importance in social media In the postmodern environment of the 21st century food nutrition culinary arts and to put it briefly gastronomy became the dominant language of communication Moreover it caused kitchen wars by becoming politicized In line with my interest in gastronomy I wanted to focus on food advertisements I started to ask myself to what extent the fast food trend that marked the 21st century was changing the Global Society Interestingly I started to observe that there were metaphysical images that were reflected from ancient wisdom to the present day in McDonald s brand communication This problem which has not been studied much yet was an important exercise for me in terms of analyzing the Global Society as a doctoral thesis I can say that doing the analysis in the light of semiology as a method has broadened my horizon by directing me to an interdisciplinary perspective I would like to acknowledge Communication Sciences and the Internet Institute which allowed me to make such a significant study Prof Dr Mete amdereli who supported me with great excitement in all phases of my thesis Prof Dr Emine Yava gel who made great contributions to deepen my research subjects in the monitoring of the thesis In addition I would like to thank Prof Dr Mim Kemal ke from whose suggestions I benefited in the historical context I am also indebted to my colleagues and friends especially my family who buoyed me up and supported me during the research and writing process of
