THE LIGHTHOUSE STEVENSONS BELLA BATHURST

**The extraordinary story of the
building of the Scottish lighthouses
by the ancestors of
Robert Louis Stevenson**

The Lighthouse Stevensons

Arthur Johnstone

The Lighthouse Stevensons:

The Lighthouse Stevensons Bella Bathurst, HarperCollins Publishers Ltd., 2000-11-07 For centuries the seas around Scotland were notorious for shipwrecks. Mariners' only aids were skill, luck, and a single coal fire light on the east coast which was usually extinguished by rain. In 1786 the Northern Lighthouse Trust was established with Robert Stevenson appointed as chief engineer a few years later. In this engrossing book Bella Bathurst reveals that the Stevensons not only supervised the construction of the lighthouses under often desperate conditions but also perfected a design of precisely chiseled interlocking granite blocks that would withstand the enormous waves that batter these stone pillars. The same Stevensons also developed the lamps and lenses of the lights themselves which sent a gleam across the wave and prevented countless ships from being lost at sea. While it is the writing of Robert Louis Stevenson that brought fame to the family name, this mesmerizing account shows how his extraordinary ancestors changed the shape of the Scotland coast against incredible odds and with remarkable technical ingenuity. *Lighthouse Stevensons* Bella Bathurst, 2000 *The Lighthouse Stevensons* Bella Bathurst, 2011-06-28 The flamboyant and elegantly written saga of the legendary author's family and their lifesaving nautical advances across eighteenth century Scotland. Publishers Weekly For centuries the seas around Scotland were notorious for shipwrecks. Mariners had nothing to aid their navigation but a single coal fire light on the east coast which was usually extinguished by rain. In 1786 the Northern Lighthouse Trust was established with Robert Stevenson appointed as chief engineer a few years later. In this engrossing book Bella Bathurst reveals that the Stevensons not only supervised the construction of the lighthouses under often desperate conditions but also perfected a design of precisely chiseled interlocking granite blocks that would withstand the enormous waves that batter these stone pillars. Writer of *Boundaries* reinstates Stevenson at the center of critical debate and demonstrates the sophistication of his writings and the present relevance of his kaleidoscopic achievements. While most young readers know Robert Louis Stevenson 1850-1894 as the author of *Treasure Island*, few people outside of academia are aware of the breadth of his literary output. The contributors to *Robert Louis Stevenson: Writer of Boundaries* look with varied critical approaches at the whole range of his literary production and unite to confer scholarly legitimacy on this enormously influential writer who has been neglected by critics. As the editors point out in their Introduction, Stevenson reinvented the personal essay and the walking tour essay in texts of ironic stylistic brilliance that broke completely with Victorian moralism. His first full-length work of fiction, *Treasure Island*, provocatively combined a popular genre subverting its imperialist ideology with a self

conscious literary approach Stevenson one of Scotland's most prolific writers was very effectively excluded from the canon by his twentieth century successors and rejected by Anglo American Modernist writers and critics for his play with popular genres and for his non serious metaliterary brilliance While Stevenson's critical recognition has been slowly increasing there have been far fewer published single volume studies of his works than those of his contemporaries Henry James and Joseph Conrad

Robert Louis Stevenson in the Pacific Roslyn Jolly,2016-12-05 Robert Louis Stevenson's departure from Europe in 1887 coincided with a vocational crisis prompted by his father's death Impatient with his established identity as a writer Stevenson was eager to explore different ways of writing at the same time that living in the Pacific stimulated a range of latent intellectual and political interests Roslyn Jolly examines the crucial period from 1887 to 1894 focusing on the self transformation wrought in Stevenson's Pacific travel writing and political texts Jolly shows how Stevenson's desire to understand unfamiliar Polynesian and Micronesian cultures and to record and intervene in the politics of Samoa gave him opportunities to use his legal education pursue his interest in historiography and experiment with anthropology and journalism Thus as his geographical and cultural horizons expanded Stevenson's professional sphere enlarged as well stretching the category of authorship in which his successes as a novelist had placed him Rather than enhancing his stature as a popular writer however Stevenson's experiments with new styles and genres and the Pacific subject matter of his later works were resisted by his readers Jolly's analysis of contemporary responses to Stevenson's writing gleaned from an extensive collection of reviews many of which are not readily available provides fascinating insights into the interests obsessions and resistances of Victorian readers As Stevenson sought to escape the vocational straightjacket that confined him his readers just as strenuously expressed their loyalty to outmoded images of Stevenson the author and their distrust of the new guises in which he presented himself

beauty and solitude Celtic history and tradition come alive as our hosts meander their way along Part travelogue part guidebook but all charm and wit this book transports us to another culture where we have much to learn I have never met a travel book with so much love in it for nature for the oddities encountered for good food and for the privilege of living on this planet The book is deliciously readable and reveals a breadth of curiosity that is enticing Anthony Smith author of Explorers of the Amazon and the TV series Wilderness What happens to the backpacking crowd when their backs grow too weak with age to shoulder the burden when the lure of the open road is still strong but the feet are better suited to loafers than hiking boots Do nights of camaraderie in student packed hostels turn to breakfasts in bed at bed and breakfasts Does hitchhiking give way to most car rentals Well traveled 70 something adventurers Warren Rovetch and his wife Gerda answer these questions and many more in a charming yet practical new book **Travel with a Challenge** **Fantasy, Art and Life** William Gray,2011-05-25 In part a sequel to his earlier *Death and Fantasy* William Gray's *Fantasy Art and Life: Essays on George MacDonald, Robert Louis Stevenson and Other Fantasy Writers* examines the ways in which Life in its various senses is affirmed explored and enhanced through the work of the creative imagination especially in fantasy literature The discussion includes a range of fantasy writers but focuses chiefly on two writers of the Victorian period George MacDonald and Robert Louis Stevenson whose Scottish and particularly Calvinist backgrounds deeply affected their engagement with what MacDonald called The Fantastic Imagination **The Triumph of Human Empire** Rosalind Williams,2013-09-30 In the early 1600s in a haunting tale titled *New Atlantis* Sir Francis Bacon imagined the discovery of an uncharted island This island was home to the descendants of the lost realm of Atlantis who had organized themselves to seek the knowledge of Causes and secret motions of things and the enlarging of the bounds of Human Empire to the effecting of all things possible Bacon's make believe island was not an empire in the usual sense marked by territorial control instead it was the center of a vast general expansion of human knowledge and power Rosalind Williams uses Bacon's island as a jumping off point to explore the overarching historical event of our time the rise and triumph of human empire the apotheosis of the modern ambition to increase knowledge and power in order to achieve world domination Confronting an intensely humanized world was a singular event of consciousness which Williams explores through the lives and works of three writers of the late nineteenth century Jules Verne William Morris and Robert Louis Stevenson As the century drew to a close these writers were unhappy with the direction in which their world seemed to be headed and worried that organized humanity would use knowledge and power for unworthy ends In response Williams shows each engaged in a lifelong quest to make a home in the midst of human empire to transcend it and most of all to understand it They accomplished this first by taking to the water in life and in art the transition from land to water offered them release from the condition of human domination At the same time each writer transformed his world by exploring the literary boundary between realism and romance Williams shows how Verne Morris and Stevenson experimented with romance and fantasy and how these traditions allowed them to express their growing

awareness of the need for a new relationship between humans and Earth The Triumph of Human Empire shows that for these writers and their readers romance was an exceptionally powerful way of grappling with the political technical and environmental situations of modernity As environmental consciousness rises in our time along with evidence that our seeming control over nature is pathological and unpredictable Williams s history is one that speaks very much to the present
