The Struggle For Recognition:

The Struggle for Recognition Axel Honneth, 2018-03-12 In this book Axel Honneth re-examines arguments put forward by Hegel and claims that the struggle for recognition should be at the centre of social conflicts [The Struggle for Recognition](#) Axel Honneth, 1996 In this pathbreaking study Axel Honneth argues that the struggle for recognition is and should be at the center of social conflicts Moving smoothly between moral philosophy and social theory Honneth offers insights into such issues as the social forms of recognition and nonrecognition the moral basis of interaction in human conflicts the relation between the recognition model and conceptions of modernity the normative basis of social theory and the possibility of mediating between Hegel and Kant **Axel Honneth and the Movement of Recognition** Tommaso U. A. Sperotto, 2022-06-21 The author explores the thought of one of the most important contemporary philosophers Axel Honneth in his attempt to develop a critical theory of society and to develop a third way between liberalism and republicanism At the heart of this attempt is the concept of recognition which is explored in all its multiple dimensions in order to develop a new image of subject society and freedom **The Refractionist**, 1925 **Individual Rights and the Making of the International System** Christian Reus-Smit, 2013-08-29 Shows the central role struggles over individual rights played in the development of today's global system of sovereign states **Recognition and Power** Bert van den Brink, David Owen, 2007-04-09 The topic of recognition has come to occupy a central place in debates in social and political theory Developed by George Herbert Mead and Charles Taylor it has been given expression in the program for Critical Theory developed by Axel Honneth in his book *The Struggle for Recognition* Honneth's research program offers an empirically insightful way of reflecting on emancipatory struggles for greater justice and a powerful theoretical tool for generating a conception of justice and the good that enables the normative evaluation of such struggles This 2007 volume offers a critical clarification and evaluation of this research program particularly its relationship to the other major development in critical social and political theory namely the focus on power as formative of practical identities or forms of subjectivity proposed by Michel Foucault and developed by theorists such as Judith Butler James Tully and Iris Marion Young *Axel Honneth's Theory of the Struggle for Recognition* Marjan Ivković, 2014 **Inwardness and Existence** Walter Albert Davis, 1989 A profound challenging wide-ranging book back in print for a new generation *Inwardness and Existence* accomplishes what no book before or after has even approximated it demonstrates with great lucidity and insight the shared philosophical project that animates psychoanalysis Marxism existentialism and Hegelian dialectics Davis roots the reader in the enterprise of questioning what is given and probing beyond what is safe in order to demonstrate that psychoanalytic inquiry Marxist politics existential reflection and dialectical connection all move within the same orbit No one who reads it will ever think about existence itself in the same way again Davis's landmark work will profoundly transform anyone who reads it Todd McGowan author of *The Real Gaze Film Theory after Lacan* **J.S. the Primacy of the Political Véronique M. Fóti, Pavlos Kontos, 2017-05-11 This volume is a Festschrift in honor of Jacques Taminiaux and examines the primacy of the political within phenomenology. These objectives support each other in that Taminiaux's own intellectual itinerary brought him increasingly to an affirmation of the importance of the political. Divided into four sections, the essays contained in this volume engage with different aspects of the political dimension of phenomenology: its dialogue with classic texts of political philosophy; the political facets of phenomenological praxis; phenomenology's contribution to actual political debates; and the impact of Taminiaux's work in the shaping of phenomenology's notion of politics. The phrase "the primacy of the political" echoes the primacy of perception as it was famously defined by Merleau-Ponty. This book emphasizes, however, the inescapability of the political rather than its foundational character, i.e., the fact that various itineraries of thought explored in different fields of phenomenological research give rise to politically relevant reflections. It points out and elucidates political connotations that haunt phenomenological concepts such as world, self, nature, intersubjectivity, or language and traces them to a broad range of approaches, concepts, and methods. In its explorations, the book discusses a broad range of thinkers, including but not limited to Aristotle and Kant, Bergson, Husserl, Heidegger, Merleau-Ponty, Gadamer, Ricoeur, and Arendt. **The Survey**, 1926

The Problem of Authority in America John P. Diggins, Mark E. Kann, 1981 **Recognition and Power** Bert van den Brink, David Owen, 2007-04-09 The topic of recognition has come to occupy a central place in contemporary debates in social and political theory. Rooted in Hegel's work developed by George Herbert Mead and Charles Taylor, it has been given renewed expression in the recent program for Critical Theory developed by Axel Honneth in his book *The Struggle for Recognition*. Honneth's research program offers an empirically insightful way of reflecting on emancipatory struggles for greater justice and a powerful theoretical tool for generating a conception of justice and the good that enables the normative evaluation of such struggles. **The College Course and the Preparation for Life** Albert Parker Fitch, 1914

Misleaders of Labor William Z. Foster, 1927 A corrupted labor leadership. Class collaboration. Reactionary labor politics. Bribery and betrayal in various industries. Organized graft in the building trades. Plundering the workers. Trade union capitalism. Swindle. Tainted labor journalism. Autocratic control of the unions. What must be done. **In the beginning** Christian Forscher, 2025-06-02 What options remain if we accept neither religious faith nor the theory of evolution? If the Big Bang is not a realistic explanation as our research has now proven it to be completely untenable, then what remains? The many dogmas, whether religious or scientific, leave us with unanswerable questions. The search for reality begins with the recognition of false theories. This recognition provides a foundation on which real knowledge can be built. It is man's task to understand the world, to learn its laws, to learn what really exists. For us, everything is relative as Einstein so aptly put it, but what really exists is not relative at all. The perceptible world is the result of precisely defined laws. *Daily Intelligence*, 1921 **The Study of Animal Life** John Arthur Thomson, 1917 Subjectivity, Gender and the Struggle for Recognition

P. McQueen,2014-12-15 In this book Paddy McQueen examines the role that recognition plays in our struggles to construct an identity and to make sense of ourselves as gendered beings It analyses how such struggles for gender recognition are shaped by social discourses and power relations and considers how feminism can best respond to these issues History, Encyclopedia, Reference Book American Federation of Labor,1924
