Christina Neilson, 2019-07-18 Verrocchio worked in an extraordinarily wide array of media and used unusual practices of making to express ideas *Michelangelo's David* John T. Paoletti, 2015-02-12 This book takes a new look at the interpretations of and the historical information surrounding Michelangelo's David New documentary materials discovered by Rolf Bagemihl add to the early history of the stone block that became the David and provide an identity for the painted terracotta colossus that stood on the cathedral buttresses for which Michelangelo's statue was to be a companion The David with its placement at the Palazzo della Signoria was deeply implicated in the civic history of Florence where public nakedness played a ritual role in the military and in the political lives of its people This book then places the David not only within the artistic history of Florence and its monuments but also within the popular culture of the period as well

Verrocchio Andrew Butterfield, 2021-09-28 A comprehensive survey of the work of this most influential Florentine artist and teacher Andrea del Verrocchio c 1435-1488 was one of the most versatile and inventive artists of the Italian Renaissance He created art across media from his spectacular sculptures and paintings to his work in goldsmithing architecture and engineering His expressive confident drawings provide a key point of contact between sculpture and painting He led a vibrant workshop where he taught young artists who later became some of the greatest painters of the period including Leonardo da Vinci Sandro Botticelli Lorenzo di Credi and Domenico Ghirlandaio This beautifully illustrated book presents a comprehensive survey of Verrocchio's art spanning his entire career and featuring some fifty sculptures paintings and drawings in addition to works he created with his students Through incisive scholarly essays in depth catalog entries and breathtaking illustrations this volume draws on the latest research in art history to show why Verrocchio was one of the most innovative and influential of all Florentine artists Published in association with the National Gallery of Art Washington DC

The Restoration of Ancient Bronzes Erik Risser, David Saunders, 2013-01-31 The archaeological finds at Herculaneum and Pompeii have rendered Naples an especially rich field for the study of the history of restorations particularly of ancient bronzes Bringing together the research of an international group of curators conservators archivists and scientists this extensively illustrated online volume examines the evolving practice of bronze restoration in Naples and other European centers from the eighteenth century to today Presenting the results of new investigations this collection of essays and case studies addresses the contexts in which the restorations took place the techniques and materials used the role of specialists and changing attitudes to the display of these statues Along with a rich selection of images these texts offer a significant contribution to the history of restoration and conservation providing valuable information regarding the evolution of taste and museum practices at a formative stage of modern archaeology The essays collected here were written following a series

of presentations at a one day conference Restoring Ancient Bronzes in the Nineteenth Century held at the J Paul Getty Museum on May 6 2011 Each illustrated essay is accompanied by a separate gallery of large format images to facilitate study and analysis Edited by Erik Risser associate conservator in the Department of Antiquities at the J Paul Getty Museum and David Saunders assistant curator in the Department of Antiquities at the J Paul Getty Museum this collection is part of the Getty's ongoing commitment to the online publication of scholarly conferences and symposia [Bibliographic Guide to Art and Architecture](#) New York Public Library.
