Ayres, 1990 With the help of a little magic Victoria the pig is turned into a kite which has a chance of winning the big kite flying contest **Flying Higher** Morten Beyer, 2009-10-08 The rise of transport airlines stems from the final days of World War II when airplanes were used mostly by the military and for Government mail Juan Trippe's idea of an Empire of the Air transporting people was a distant dream There were no footsteps to follow Beyer working himself up through the ranks cast his practical eye at the many aspects of how an airline could run and prosper and became known as an efficiency wizard During his international career he says what it was like dealing with government regulations he describes the fleets and their maintenance and at one point a revolution All this is interspersed with some hilarious anecdotes It was a risky business and this is the true adventure of Mort Beyer's life as the president of several scheduled and non scheduled airlines over a span of sixty years **The Armored Angels** Christopher
