Victory At Le Mans:

Shelby American 60 Years of High Performance Colin Comer, Richard J. Kopec, 2023-01-03 Six Decades of Shelby performance from the first Shelby AC Cobra to today's Mustang Shelby GT500. A bad heart forced Carroll Shelby, one of the top racing drivers of all time, to retire in 1960. But that didn't stop the lanky Texan from continuing to make history. He launched Shelby American in 1962 with the creation of the brilliant Ford-powered AC Cobra, soon to dominate both U.S. and international sports car racing. Shelby's winning ways soon led to Ford seeking Shelby's team of hot rodders' help to make the Ford GT program a success. It worked. Shelby and Ford soon stunned the motorsports world by winning Le Mans and dominating other venues from 1966 to 1969 with the GT40. Fifty-three years later, the legendary first Le Mans win of 1966 would form the basis for the acclaimed film *Ford Versus Ferrari*. As if the Cobra, Daytona Coupe, and GT40 were not enough, this small team of hot rodders, fabricators, and race mechanics also created the Shelby Mustang GT350 in 1965 and the GT500 two years later. Shelby American was nothing short of lightning in a bottle from 1962-1970. Shelby American 60 Years of High Performance covers all of these early triumphs, following the proceedings from a small shop in Venice, California, to sprawling digs at LAX, all the while developing new road cars, running a top race team, and giving privateer racers the cars they needed to win. Get to know Shelby as well as the innovators who surrounded him, including designer Peter Brock, genius engineer Phil Remington, Mr. GT350 Chuck Cantwell, and a roster of top drivers that included Ken Miles, Bob Bondurant, Dan Gurney, Bruce McLaren, Denny Hulme, A.J. Foyt, Mario Andretti, and more. Authors Colin Comer and Rick Kopec, leading Shelby historians, follow the Shelby story through Carroll's post-Ford relationship with Dodge, including his roles in the giant-killing pocket rocket Shelby Charger, GLH Goes Like Hell, and GLH S cars, along with a slew of other Shelby-ized machines, including his role in the birth and development of the menacing Dodge Viper. The story of the late Carroll Shelby and the company he founded is a classic tale of ingenuity, grit, and perseverance, illustrated throughout with rare period imagery and modern color photography. Shelby American 60 Years of High Performance is the ultimate tribute to Shelby American and the team that made it all happen.

Cutting Edge Conversations EJ 'Ted' Cutting, Stuart Bailey, 2024-06-04

EJ Ted Cutting was not only Aston Martin's most successful Chief Race Car Design Engineer but was also an innovator with influential force on the worldwide automotive industry Originating from a limited edition hardback version this eBook was produced in celebration of the 60th anniversary of Aston Martin winning the World Sports Car Championship for Britain with the all conquering DBR1 designed engineered and created by Ted himself Rather than a traditional biography of his life Ted wanted his book to be rather less scripted and informal it was therefore initially adapted from a number of recorded conversations between himself and Aston Martin Heritage Trust members Stuart Bailey and Brian Joscelyne the title being an obvious choice considering this In addition to the in depth telling of a legendary period in British motorsport by a man at the centre of it all the book also sees Ted clarify a number of details which have in the past been incorrectly reported Unusually it also contains all his published documents and access to a 90 minute video of his unique lecture on Racing Astons to further endorse his story Although the original hardback edition of this book was produced only in a limited run Ted's wish was to make the complete book available to a much wider audience now possible through the internet as an engineer always working at the cutting edge of technology he would appreciate the benefits of information sharing in the digital age As well as being of interest to fans of Aston Martin and of motorsports in general the book is a compelling read for any student of automotive design and engineering after all progress is about standing on the shoulders of giants and in the field of race car design few individuals ever reach the colossal heights achieved by Ted Cutting
