**We, The People(s)** Claire Charters, Dean Robert Knight, 2013-01-01 The analyses in this book focus on the participation of the people within New Zealand's system of government. The chapters provide a thorough examination of the government's size accessibility structure electoral system and active committees in order to explain trends in the participation of sub-state actors such as indigenous peoples and other minority groups. *Drug Enforcement Administration. **WE THE PEOPLE, SERVANTS OF DECEPTION** Christopher M. Dawson, 2012-05-14 Using the principles and tools of sociology presented in his university course Chris Dawson challenges the reader to reconsider the social reality of our society. This book exposes inconsistencies and deceptions in the conventional portrayal of America's experiment in democracy. His provocative social commentary explores the role of our military, the culture of fear, strategies in the war on terror, the excesses of corporate power and our misconceptions about crime. He speaks of social inequality, social and racial group divisions and offers unconventional views about education, medicine, universal healthcare and the origins of religion. The doubts he raises will merit your serious reflection. [An Honest Answer to the We the People \(WTP\) Petition for Redress of Grievances, Form #08.029](#)

**We the Mediated People** Joshua Braver, 2023 Populist leaders define the people as one segment of the population that is unbound by law to centralize power. This book retells the story of constitution making in South America to develop an alternative theory of how and how not to break law to construct an inclusive people. Braver argues that through the extraordinary adaptation of old institutions an inclusive people may illegally create a new constitution but still protect democracy. He examines how populist leaders in Venezuela and Ecuador established semi-authoritarian constitutions through lawless constitution making while Colombia and Bolivia managed to avoid the same fate by engaging in extraordinary adaptation. [The People's Property?](#)

Lynn Staeheli, Donald Mitchell, 2016-05-06 The People's Property is the first book-length scholarly examination of how negotiations over the ownership, control, and peopling of public space are central to the development of publicity, citizenship, and democracy in urban areas. The book asks the questions: Why does it matter who owns public property? Who controls it? Who is in it? Donald Mitchell and Lynn A Staeheli answer the questions by focusing on the interplay between property in its geographical sense as a parcel of owned space and people. Property rights are often defined as the right to exclude. It is important therefore to understand who, what individual and corporate entities governed by what kinds of regulations and restrictions own publicly accessible property. It is likewise important to understand the changing bases for excluding some people and classes of people from otherwise publicly accessible property. That is to say it is important to understand how

modes of access and possibilities for association in publicly accessible space vary for different individuals and different classes of people if we are to understand the role public spaces play in shaping democratic possibilities In what ways are urban public spaces the people s property and in what ways are they not What does this mean for citizenship and the constitution of an inclusive democratic polity The book develops its argument through five case studies protest in Washington DC struggles over the Plaza of Santa Fe NM homelessness and property redevelopment in San Diego CA the enclosure of public space in a mall in Syracuse NY and community gardens in New York City Though empirically focused on the US the book is of broader interests as publics in all liberal democracies are under going rapid reconsideration and transformation
