

WHY NATIONS GO TO WAR
BY JOHN G. STOESSINGER

Paperback: 288 pages

Publisher: Wadsworth Publishing; 8th (August 04 2000)

This book was really quite interesting. Stoessinger writes in a lucid manner, which makes the book a very easy read. However, I have two problems with this book. My first problem with this book is its emphasis on the individual, as well as the criteria of the analysis. Stoessinger blames key leaders and individuals as responsible for the various wars addressed throughout this book (i.e. WWI, WWII, etc). This seems pretty reductionist to me when there are other levels of analysis to consider as well. To make matters worse, Stoessinger reduces his personal biases against, say, Hitler into a characterization of Hitler as "mad." Well, Hitler might have been mad, but there is more to Hitler than simple "madness." Second, my problem with this book is that although there are footnotes, Stoessinger purports to see into the mind of leaders such as the Kaiser, Hitler etc. without proving his authority or where he received such personal insights. Oh, I guess I have a third criticism as well. The title of this book is "Why Nations Go to War;" if understanding why nations to go war is the purpose of writing this book, I don't think that devoting one chapter on one conflict (about 20-25 pages) is going to explain why nations to go to war.

Why Nations Go To War is a fantastic book, and gives the reader remarkable insight into the precipitations of war. While analyzing both the interactions between national leaders and their thoughts in depth, this book is an excellent way to further your understanding of the causes of war. After reading this book, you will easily be able to understand many present-day conflicts, and where and why they began. Why Nations Go To War talks about the Persian Gulf War, Kosovo, the wars between India and Pakistan, and offers valuable background info on a question that has been in the news for some time: Why do the Muslims hate the Jews, and vice-versa?, and those who would simply like to know what's going on.

The book is a valuable contribution for intelligence analysts wrestling with the strategic intelligence considerations when preparing for war. Stossinger's review of 8 case studies (WWI, Hitler's attack on Russia, Korea, Vietnam, India and Pakistan, Israel and the Arabs, Saddam Hussein, and the Balkans) distills the following determinants as to
