Why To Okinawa:

Transnational Identities on Okinawa's Military Bases Johanna O. Zulueta, 2019-09-27 This book considers the role of civilian workers on U S bases in Okinawa Japan and how transnational movements within East Asia during the Occupation period brought foreign workers mostly from the Philippines to work on these bases Decades later in a seeming reproduction of base labour returnees of both Okinawan and Philippine heritage began occupying jobs on base as United States of Japan USFJ employees The book investigates the role that ethnicity nationality and capital play in the lives of these base employees and at the same time examines how Japanese and Okinawan identities are formed and challenged It offers a valuable resource for those interested in Japan and Okinawa U S military basing migration and mixed ethnicities **Okinawa's GI Brides** Etsuko Takushi Crissey, 2017-06-30 The American military started building its massive base complex in Okinawa at the end of World War II During the decade that followed US forces seized vast areas of privately owned land evicting and impoverishing thousands of farmers US military occupation rule imposed during the Battle of Okinawa in 1945 lasted until 1972 twenty years longer than the Allied occupation of mainland Japan Besides land seizures Okinawans were subjected to numerous human rights violations including oxymoronic occupation law that consistently favored the US military in cases of serious crimes against civilians denial of the freedom to choose candidates for elected office and strict limits on travel outside Okinawa even to mainland Japan The commanding military presence has persistently stymied economic development in Okinawa which remains Japan's poorest prefecture Yet even as the disproportionate burden of bases continues to impose dangers and disruptions hundreds of Okinawan women every year have married American servicemen and returned with them to live in the United States Former Okinawa Times reporter Etsuko Takushi Crissey traveled throughout their adopted country conducting wide ranging interviews and a questionnaire survey of women who married and immigrated between the early 1950s and the mid 1990s She concentrates especially on their experiences as immigrants wives mothers working women and members of a racial minority Many describe severe hardships they encountered In Okinawa's GI Brides Crissey presents their diverse personal accounts her survey results and comparative data on divorces challenging the widespread notion that such marriages almost always fail with the women ending up abandoned and helpless in a strange land Her book the first on Okinawan wives of US servicemen also compares the circumstances of their marriages with those of so called war brides and postwar spouses of American servicemen stationed in mainland Japan and Europe Written in brisk and lively prose this book is stimulating and informative reading for a general audience and a timely resource for specialists in the fields of history political science sociology international relations and anthropology as well as ethnic immigrant and gender studies Okinawan Women's Stories of Migration Johanna O. Zulueta, 2022-03-24 The phenomenon of war brides from Japan moving to the West has been quite widely discussed but this book tells the stories of women whose lives followed a rather different path after they married foreign occupiers During Okinawa's Occupation by the Allies from 1945 to 1972 many

Okinawan women met and had relationships with non Western men who were stationed in Okinawa as soldiers and base employees Most of these men were from the Philippines Zulueta explores the journeys of these women to their husbands homeland their acculturation to their adopted land and their return to their native Okinawa in their late adult years Utilizing a life course approach she examines how these women crafted their own identities as first generation migrants or Issei in both the country of migration and their natal homeland their re integration to Okinawan society and the role of religion in this regard as well as their thoughts on end of life as returnees This book will be of interest to scholars looking at gender and migration cross cultural marriages ageing and migration as well as those interested in East Asia particularly Japan Okinawa
