Hunks, Hotties, and Pretty Boys Steven L. Davis, Maglina Lubovich,2009 White heterosexual middle class men have long served as the standard for masculine oebauty even if such men have refused to embrace this term This study seeks to denaturalize this standard by exploring the connections between beauty and the broad spectrum of masculinities The chapters included in Hunks Hotties and Pretty Boys contribute primarily to the field of gender studies specifically masculinity studies They consider twentieth century representations of male beauty through a variety of mediums performance literature art photography film and television Although the contributors hail from both the humanities and the social sciences all share a concern for how beauty informs shapes defines and re defines our understanding of masculinity itself These scholars investigate a range of historical periods and draw from a broad scope of critical approaches Some interrogate male beauty through the female gaze and look to the influence of female performance on notions of masculine beauty Others examine how queer and racial constructions of male beauty refuse and offer alternatives to hegemonic models of identity Another revisits previous philosophical and theoretical conceptions of beauty only to deconstruct gendered conceptions of the beautiful and the sublime In all these essays complicate masculine beauty by examining Chicano Asian working class and female constructions of male beauty in Western culture
