The Divorce Experience:

The Divorce Experience Morton M. Hunt, Bernice Kohn Hunt, 1977 [The Divorce Experience of Working and Middle Class Women](#) Toni L'Hommedieu, 1984 **The Divorce Experience of Working and Middle Class Women** Toni L'Hommedieu, 1984 [The Experience and Meaning of Work in Women's Lives](#) Hildreth Y. Grossman, Nia Lane Chester, 2013-04-15 In the past social scientists have relied predominantly on traditional models of work to understand women's experiences. These models however have been based on men's occupational experiences which have been assumed to be the same for women. More recently researchers and theorists from a variety of disciplines have begun to challenge earlier assumptions as inaccurate reflections of the realities for female workers. Newer studies have concentrated on the historical and social reasons for women's employment and career choices including changes in economy, family and social conditions. To provide a deeper understanding of women worker's realities by including the meaning they make of their work experiences, the editors have assembled the research of social scientists from various disciplines whose investigations focused exclusively on this subject. Their qualitative methodology provides a forum for women to voice issues, raise questions and share self-reflections about their work experiences and the meaning they make of their work in the context of the rest of their lives. The common themes that are interwoven within the fabric of women's work experience are the need to expand traditional definitions of what constitutes work, the fluid nature of boundaries between personal life and work life, the importance of the relational aspects of their work, the issues related to the uses of power at work, the role of work in the development of women's sense of self and personal identity and the degree to which women's work experience is colored by discrimination and sexism. [Beyond the Average Divorce](#) David H. Demo, Mark A. Fine, 2010 [Beyond the Average Divorce](#) is a core text that introduces students and scholars to the research literature on divorce and changes which occur in family structures. Rather than a simplistic static view that emphasizes means and averages in looking at typical family reactions to divorce, this text emphasizes variability, fluidity and change over time in the pre-divorce, divorce and post-divorce process. The book also presents a dynamic theoretical model of divorce and how it is experienced and reacted to by family members in the complex variety of family situations. [Handbook of Divorce and Relationship Dissolution](#) Mark A. Fine, John H. Harvey, 2013-12-19 This Handbook presents up to date scholarship on the causes and predictors, processes and consequences of divorce and relationship dissolution. Featuring contributions from multiple disciplines, this Handbook reviews relationship termination including variations depending on legal status, race, ethnicity and sexual orientation. The Handbook focuses on the often neglected processes involved as the relationship unfolds, such as infidelity, hurt and remarriage. It also covers the legal and policy aspects, the demographics and the historical aspects of divorce. Intended for researchers, practitioners, counselors, clinicians and advanced students in psychology, sociology, family studies, communication and nursing, the book serves as a text in courses on divorce, marriage and the family and close relationships. **Men's Experience of Divorce** William R. Evans

(Iii),2000 Using the heuristic methodology under the aegis of qualitative research eight co researchers were asked the question What is your experience of being divorced Data was collected through in depth interviews and self dialogue From the data Individual Portraits of each of the co researchers were created A Composite Portrait of the co researcher s and the author s experience was presented along with findings that captured the divorce experience of these men and the author Under the concepts of tacit dimension intuition and self searching a Creative Synthesis sharing the personal essences of the divorce experience was presented Findings were grouped under topics I Initial Reactions The Divorce Experience a Divorce Initiation b Divorce as a Novel Concept c Divorce and Surprise d Divorce and Anger II Blame The Divorce Experience a Blaming One s Self for Causing the Divorce b Blaming Others c Blaming Immaturity III Helplessness The Divorce Experience a War as a Metaphor for Divorce b Ex wife s Hostile Behavior c Encountering the Legal System IV Social Supports The Divorce Experience a Family and Friends b Therapeutic Supports c Legal Supports V Adaptation The Divorce Experience a Positive and Negative Adaptation b Positive Adaptation Only c Negative Adaptation Only Following the presentation of the results see Findings a chapter entitled Discussions examined the data as they related to the current literature on the topic of men and divorce Comparisons between qualitative and quantitative research methodologies were explored A significant discovery was the dearth of qualitative research studies on the topic of men and divorce Questions regarding quantitative methodology and gender specific scales and measures were addressed The concept of divorce as a painful rite of passage for men was commented upon and implications for the field of couples and male psychotherapy were noted Divorced, without Children Debra D. Castaldo,2011-02-14 The topic of women divorced at midlife without children is one that has to date been absent from professional and academic literature though these women make up a considerable and growing portion of our population This book explores the experience meaning and impact of divorce at midlife for women without children and provides insights into the unique stressors and issues confronting these individuals so that the practitioner can better anticipate and meet their needs Clinical considerations and case examples will be presented via the narrative stories of women who have experienced this unusual role in a world that is still primarily centered on marriage and mothering This book provides case examples clinical themes treatment recommendations and suggests coping techniques and strategies Castaldo draws heavily upon social constructionist feminist and narrative perspectives as theoretical frameworks for the book as well as the results of her own qualitative research study She suggests new concepts for women s psychological development including an expanded family life cycle to include a normalized stage of mature single adulthood and a developmental process of autonomous competence for women Other critical coping skills include meaning modification role innovation self nurturing expanded intimacy and attachment and multi diverse industriousness ... Social Work Diagnosis in Contemporary Practice Francis J. Turner, 2005-02-10 The unifying theme of this broad reaching volume is that responsible ethical and effective social work practice rests on the diagnostic skills of the practitioner Social work diagnosis refers to the conscious formulation of an ongoing set of decisions about the client and his or her situation which serve as the basis for intervention decisions for which the practitioner must be prepared to take responsibility Diagnostic skill development is an ongoing process principally enhanced by a continuous commitment to remain at the cutting edge of the profession's body of knowledge but one of the challenges for today's practitioner is keeping abreast of the rapidly expanding body of knowledge contained in some 200 important social work periodicals in circulation Francis J Turner a preeminent clinical scholar brings together in one volume some of the best work published since 2000 each reflecting new insights into understanding psychosocial situations and innovative methods of applying knowledge and skills in an increasingly effective manner Each of the 78 articles in this volume highlights some of the critical dimensions of contemporary social work practice guiding clinicians to address four key aspects in order to craft an accurate diagnosis The first section presents articles covering the developmental spectrum each of which fully explains various ages and stages of development The second section focuses on a range of specific situations helping practitioners and students enrich their understanding of different types of problems they meet in contemporary practice whether they are based in mental illness psychosocial issues or physical ailments The third section addresses the crucial component of diversity demonstrating the complexity and critical importance of truly understanding clients and their lives The last section of the book discusses innovative approaches to practice selected to offer practitioners easy access to the latest interventions for a host of contemporary challenges facing clients and their therapists Broad in scope and tightly focused on the goal of providing the most up to date information necessary for accuracy in the diagnostic process this volume represents some of the best research available to today's social workers
