## **The Lightning:**

The Lightning's Heir Ayhan Senel, One strike changed his mind One tragedy changed his time The Burden of a God Like Mind At eight years old Ayhan was struck by lightning He didn't die he woke up with a mind that moved faster than light A super intelligence that turned the world into a chaotic map of data patterns and whispers For years this gift was a curse until he met Leyla the only person who could silence the noise in his head A Race Against the Unstoppable When a horrific accident tears Leyla away from him Ayhan refuses to accept the finality of death Armed with his transcendent intellect and a desperate obsession he cracks the code of the universe The Missing Constant He builds a machine not just to travel through time but to rewrite the very moment his world shattered A Journey Through the Veins of History From the high tech sterile towers of the year 2125 to the plague ridden streets of 19th century Ottoman Istanbul from the muddy trenches of the Middle Ages to a dystopian underground city in 2350 Ayhan's quest for redemption turns into an epic battle for humanity's survival The Ultimate Paradox As Ayhan leaps through centuries he discovers he is being hunted by the Chronos Foundation a shadowy organization that views time as a resource to be harvested But his greatest enemy isn't a corporation it is a dark distorted version of himself from a future where he chose power over love Will he save his family or will he freeze time itself to stop a monster of his own making Legacy of the Lightning is a gripping sci fi thriller that blends high concept physics with a heart wrenching story of love loyalty and the heavy price of playing God
