Research Methods for Massage and Holistic Therapies Glenn Hymel, 2005 This comprehensive resource covers a broad array of research strategies available to massage therapists to give them the tools they need to be knowledgeable readers of research literature as well as active researchers The primary focus of the book is on the quantitative aspect of research that encompasses the principal types of studies most extensively used in the various health care professions specifically massage therapy Extensive coverage is also given to the qualitative and integrative research categories that are progressively gaining recognition among researchers in various health science disciplines and professions Accommodates the March 2003 mandate from the Commission on Massage Therapy Accreditation COMTA that massage therapy schools incorporate into their curricula provisions to ensure a research literate profession Examples and techniques for interpreting research guide practitioners and students to be knowledgeable readers of massage therapy research allowing application to practice Relies heavily on concept maps flowcharts tables and illustrations and excerpts of

published studies to augment the book's narrative development of topics by providing pictorial displays and summaries of the material. Literature-based and hypothetical research examples, illustrations from several manual therapy professions employing therapeutic massage, make the material pertinent to real-life settings. An introductory section at the beginning of each chapter reviews the material covered in the previous chapter and how it relates to the new material. Chapter coverage spans the quantitative, qualitative, and integrative research categories, and affiliated research strategies and methods are considered in detail. Review summary tables give an overview of the narrative development of topics. Boxes provide the essential features of a given topic. Relies on multiple examples of possible research scenarios and illustrative excerpts from the published research literature. Content is cross-referenced for use with the Massage Therapy Foundation's Massage Therapy Research Curriculum Kit to provide both instructors and students in the 6-15 and 24-hour options levels an extensively developed resource in one place. Each chapter includes recommended web sites and software application packages for further information.

Play Therapy Techniques Charles E. Schaefer, Donna M. Cangelosi, 2002-04 The second edition of *Play Therapy Techniques* includes seven new chapters in addition to the original twenty-four. These lively chapters expand the comprehensive scope of the book by describing issues involved in beginning and ending therapy using metaphors, playing music and ball, and applying the renowned Color Your Life technique. The extensive selection of play techniques described in this book will add to the clinical repertoire of students and practitioners of child therapy and counseling. When used in combination with formal education and clinical supervision, *Play Therapy Techniques*, Second Edition can be especially useful for developing treatment plans to address the specific needs of various clinical populations. Students and practitioners of child therapy and counseling, including psychologists, psychiatrists, social workers, nurses, and child life specialists will find this second edition of *Play Therapy Techniques* informative and clinically useful.
