Byte ,1998

**Database and Expert Systems Applications** Vladimir Marik,Werner Retschitzegger,Olga Stepankova,2003-10-02 The 14th DEXA 2003 International Conference on Database and Expert stems Applications was held during September 1 5 2003 at the Czech Technical UniversityinPrague CzechRepublic

The DEXA line of conferences has already gained its own reputation and respected position as a platform for the exchange of ideas among theoreticians and practitioners in the wider area of computer science but mainly in the areas of database and knowledge based technologies. Since DEXA 1993 which was held in Prague, DEXA has grown into a multi-conference consisting of four more focused and specialized conferences besides DEXA itself namely the DaWak conference, EC Web conference, eGOV conference and this year happening for the first time the HoloMAS conference. In addition the DEXA workshop is a special event offering enough space for specialized discussion and acting in a certain sense as an incubator for new conferences. The DEXA conference itself is growing in volume and quality each year. This time there were 236 papers submitted and reviewed and the program committee selected 91 of the best papers to be included in this volume. Each of the submitted papers was carefully reviewed by at least three independent PC members or external reviewers. The DEXA proceedings quite clearly reflect the current trends in the database area and we are happy with the balanced content of both the conference and the proceedings.

*Book Review Index*, 2003 Every 3rd issue is a quarterly cumulation

**InfoWorld**, 1996-04-29 InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies and projects.
