Whose Judgment Counts:

Vernacular Voices Gerard A. Hauser, 2022-01-18 An award winning study of how formal and informal public discourse shapes opinions A foundational text of twenty first century rhetorical studies *Vernacular Voices* addresses the role of citizen voices in steering a democracy through an examination of the rhetoric of publics Gerard A Hauser maintains that the interaction between everyday and official discourse discloses how active members of a complex society discover and clarify their shared interests and engage in exchanges that shape their opinions on issues of common interest In the two decades since *Vernacular Voices* was first published much has changed in the aftermath of the 9 11 terrorist attacks US presidents have increasingly taken unilateral power to act the internet and new media have blossomed and globalization has raised challenges to the autonomy of nation states In a new preface Hauser shows how in an era of shared global crises we

understand publics how public spheres form and function and the possibilities for vernacular expressions of public opinion lie at the core of lived democracy A foreword is provided by Phaedra C Pezzullo associate professor of communication at the University of Colorado Boulder
