Why Delay:

WHEN BALANCE DIES, FAITH COLLAPSES Joseph Ngoma, 2026-03-17 Why do so many sincere believers struggle when life becomes hard Why does faith feel strong in calm seasons but fragile under pressure Why do people who love God deeply still question Him in times of silence When Balance Dies Faith Collapses confronts a truth many never see Faith often collapses not because God failed but because balance was lost In this eye opening and deeply revelatory book Joseph Habimana Ngoma exposes the hidden cause behind spiritual instability doubt exhaustion and confusion Drawing from biblical truth spiritual insight and real life observation this book reveals how one sided living whether spiritual or practical creates vulnerability in a world shaped by unseen forces This is not a book about trying harder or becoming more intense It is a call to alignment Inside these pages you will discover Why pressure exposes imbalance before it reveals unbelief Why God's silence feels threatening when structure is weak Why effort without God leads to exhaustion Why confession without discipline leads to illusion Why neutrality is dangerous in a spiritually contested world How balance restores protection clarity and stability How faith becomes rooted prayer becomes intimate and life becomes ordered This book challenges the extremes that exhaust believers and replaces them with God's original design heaven and earth walking together Rooted in the truth of Matthew 6:33 this message reveals that seeking God's Kingdom first is not about escaping responsibility but about ordering life correctly When Balance Dies Faith Collapses is for believers who feel spiritually tired Christians confused by silence and delay readers seeking depth clarity and stability anyone who desires faith that stands firm under pressure This is not a condemnation It is an explanation And more importantly it is an invitation An invitation to restore balance To realign life with God's design And to discover that when balance stands faith stands and victory follows
