Why Delinquency? Maurice Cusson, 1983-12-15 In this lucid original and provocative study Professor Cusson advances a theory of delinquent behaviour that is both disarming and convincing Delinquent behaviour he reminds us is fairly widespread among young people of all classes and backgrounds it is not it is not as some would like to believe exclusively a lower class phenomenon Most adolescents at one time or another commit acts that are violations of the law Why do they do so Delinquent activity affords more advantages than is generally supposed It permits adolescents to satisfy numerous desires to resolve very real problems to live intensely and to enjoy themselves thoroughly It is one means of obtaining what most of us are looking for excitement possessions power and the defence of essential self interests However only a minority of adolescents mainly restless youngsters concerned with the present become deeply involved in crime They do so because this seems to be the solution most readily available to them Having problems at school and in the labour market they find that doors normally open to those who enter adult life are closed to them They associate with friends who initiate them in criminal techniques and become their allies in delinquent ventures This association opens the way to illegal activities that will enable them to achieve their goals Translated and adapted from his book *Delinquents pourquoi* Cusson's study is enlivened by interesting and appropriate examples drawn from a large European and North American literature Moreover it ranges from philosophy to the behavioural and then to the biological sciences with ease and fluidity It will stimulate the thinking of student and general reader alike
