Speaking From Memory:

Speaking Memory Sherry Simon,2016-12-01 An innovative account of urban memory as a conversation across languages Speech, Memory, and Meaning Boris Gasparov,2010-04-23 The book pursues a usage oriented strategy of language description by infusing it with the central concept of post structural semiotics and literary theory that of intertextual memory Its principal claim is that all new facts of language are grounded in the speakers memory of previous experiences of using language It is a speech to speech model every new fact of speech is seen as emerging out of recalled fragments that are reiterated and manipulated at the same time By the same token the new meaning is always superscribed on something familiar and recognizable as its more or less radical alteration The model offers a way to describe the meaning of language as an open ended process the way the meaning of literary works is described in modern literary criticism The basic unit of the intertextual model is the Communicative Fragment CF A CF is a fraction of speech of any shape meaning and stylistic provenance which speakers recognize and as a consequence treat as a whole Its chief attributes are a prefabricated shape an integral meaning i e perceived as a whole whose scope always goes beyond the analyzable and a specific communicative texture alluding at a speech genre a tangible speech situation and profiles of the speaker and the implied addressee Although a CF has a recognizable shape it is not as definitively set as that of stationary linguistic signs words and morphemes A CF can be tempered with truncated or expanded adapted to and fused with other CFs The book describes in detail typical devices by which speakers manipulate their resources of linguistic memory whose ever new constellations in speech create infinite possibilities for new variations and shades of meaning The book is of interest to linguists in such diverse fields as Cognitive Linguistics discourse analysis functional linguistics language pedagogy translation studies semiotics and the philosophy of language *Practical Speech-making* Edwin Du Bois Shurter,Charles Almer Marsh,1929 *Public Speaking* United Y.
