Richard Ashe King,1889      Stained Glass of the Middle Ages in England and France Hugh Arnold,1913 I have therefore  
chosen for study certain typical windows in each century and have written about them some of the things which interest me  
and which I hope will interest others The work of the countries and period I have chosen is of course the most important of  
all There is beauty it is true in much Renaissance work only a prig could resist the gaiety and charm of the windows of St  
Vincent at Rouen but it is for the most part beauty achieved in spite of and not through the material There is beautiful  
medieval work in Germany and Italy but the Germans till the Renaissance clung to a rather lifeless and archaic convention  
and the Italians were hampered by their greater knowledge of painting The art has found its noblest expression in the work  
of the great school which for nearly the whole of the Middle Ages was common to France and England There is especial  
reason why we English should study the work of our own mediaeval glass painters      Glaziers Journal ,1927      **Abrégé de**  
**la vie de Jésus-Christ** Blaise Pascal,1999 This edition presents Pascal s little known work in French with an English  
translation The text is accompanied by nearly 100 color photographs of the stained glass windows in Strasbourg Cathedral  
which depict the whole cycle of the life of Jesus in great iconographic detail The book provides a fascinating and deeply  
topical account in words and pictures of the coming to earth of the Son of God      *Studies* ,1995 An Irish quarterly review
