**Vintage Talk** Dennis Schaefer, 1994 *So You Think You Know California Wines?* (2016) Marques Vickers, 2016-05-15 *So You Think You Know California Wines* is designed to simplify your understanding by identifying growing trends grape descriptions and the history of California wine production The edition profiles the 27 top wine grapes and principal growing regions The 81 page edition is idea for wine collectors winemakers and anyone who appreciates a world class California vintage The following are just fourteen from hundreds of little known facts about California wines and the 2015 grape harvest

- 1 Of California's 3.7 million tons of wine grapes harvested in 2015 the Central Valley growing region raised 73% and 70% of the white wine grapes California grows 17% more red wine grapes than white In 1976 the red grape ratio was two to one over whites
- 2 The Napa Valley accounted for only 4.5% of the red wine grapes and 2% of the white The Sonoma Marin region accounted for 5% of the red and 4.7% of the white wine grapes
- 3 The average value of Napa red wine grapes is over 10.12 times and for white grapes 6.12 times more than the Central Valley Sonoma Marin's regional red grapes are valued over 6.12 times and for white grapes 5.12 times more
- 4 The California drought had a negligible effect on the Central Valley's 2015 grape yields as production nearly equaled their 2014 figures
- 5 Wine grape production yields declined dramatically in the Napa Valley 29.4% Sonoma Marin 28.8% Central Coast 28.8% and Monterey Valley regions 37.8%
- 6 Cabernet Sauvignon is the most lucratively priced wine grape in California and the second most cultivated Napa Valley grape growers concentrated 59% of their red grape production into Cabernet Sauvignon Its value is 14 times the Central Valley equivalent Yields declined 23.37% in the premium wine regions
- 7 During the 1976 harvest Chardonnay represented less than 2% of California's white wine grape production In the 2015 harvest Chardonnay was the state's largest grown grape accounting for 38% of the white wine grapes and over 16% of the overall harvest production 2105 yields were down 25.32% throughout premium wine regions
- 8 Juice Valuation is the elemental cost of grape juice contained in a bottle of wine excluding any related post harvest production expenses financing costs marketing expenses and or retail mark up The 2015 juice price on a bottle of Napa Valley Cabernet Sauvignon was 8.42 Zinfandel 4.71 Merlot 4.35 Pinot Noir 3.76 and Chardonnay 3.60 Within the Central Valley region the comparable juice prices average between 40 and 75 cents per bottle
- 9 During the 2015 harvest the wine grapes that experienced the greatest production increase from 2014 included Symphony Barbera Rubired Pinot Gris Muscat of Alexandria Burger and Petite Sirah
- 10 During the 2015 harvest the wine grapes that experienced the greatest production decrease from 2014 included Muscat Blanc Triplett Blanc Sauvignon Blanc Cabernet Franc Viognier Grenache Chenin Blanc and Syrah
- 11 Real Estate property values are the number one price determinant in

the valuation of a grape's price. Elevated land values in Napa and Sonoma County directly reflect the significantly appreciated grape values. 12 Two of over thirty hybrid grapes introduced by University of California Davis viticulturist Dr. Harold Olmo account for 17% of the overall red wine grape production. 13 During the 1976 harvest, six of the most popular California grapes were Carignan, Grenache, Barbera, Ruby, Cabernet, French Colombard, and Chenin Blanc. Today, only Ruby and French Colombard rank in the top ten, and both are used for blending or bulk wines. 14 Production statistics become significant because planting decisions cannot be immediately adjusted. Grapevines require three years after planting before yielding fruit and have an average lifespan of 27 years. Many vines are replaced afterwards due to declining production yields and financial depreciation considerations.

[The City of Vines](#) Thomas Pinney, 2017-12-07. The author of *A History of Wine in America* recounts the beginnings of California's wine trade in the once isolated pueblo now called Los Angeles. Winner of the 2016 California Historical Society Book Award. With incisive analysis and a touch of dry humor, *The City of Vines* chronicles winemaking in Los Angeles from its beginnings in the late eighteenth century through its decline in the 1950s. Thomas Pinney returns the megalopolis to the prickly pear-studded lands upon which Mission grapes grew for the production of claret, port, sherry, angelica, and hock. From these rural beginnings, Pinney reconstructs the entire course of winemaking in a sweeping narrative punctuated by accounts of particular enterprises, including Anaheim's foundation as a German winemaking settlement and the undertakings of vintners scrambling for market dominance. Yet Pinney also shows Los Angeles's wine industry to be beholden to the forces that shaped all California: under the flags of Spain, Mexico, and the United States, colonial expansion dependent on labor of indigenous peoples, the Gold Rush, population boom, transcontinental railroads, rapid urbanization, and Prohibition. This previously untold story uncovers an era when California wine meant Los Angeles wine and reveals the lasting ways in which the wine industry shaped the nascent metropolis.

**Crush** John Briscoe, 2018-09-04. Winner, Top Shelf Magazine Book Awards, Historical Non-fiction Finalist, Northern California Book Awards, General Non-Fiction Look Smell Taste Judge. *Crush* is the 200-year story of the heady dream that wines as good as the greatest of France could be made in California. A dream dashed four times in merciless succession until it was ultimately realized in a stunning blind tasting in Paris. In that tasting, in the year of America's bicentennial, California wines took their place as the leading wines of the world. For the first time, Briscoe tells the complete and dramatic story of the ascendancy of California wine in vivid detail. He also profiles the larger story of California itself by looking at it from an entirely innovative perspective: the state seen through its singular wine history. With dramatic flair and verve, Briscoe not only recounts the history of wine and winemaking in California, he encompasses a multidimensional approach that takes into account an array of social, political, cultural, legal, and winemaking sources. Elements of this history have plot lines that seem scripted by a Sophocles or Shakespeare. It is a fusion of wine, personal histories, cultural, and socioeconomic aspects. *Crush* is the story of how wine from California finally gained its global due. Briscoe recounts wine's often fickle affair with California, now several centuries old.

from the first harvest and vintage through the four overwhelming catastrophes to its amazing triumph in Paris
