A person could write a history story every day for the rest of his life and not come close to covering all the history of America. The history of America in the last five hundred years reflect every human experience that man possesses. The stories selected for this book depict men, women and events of every possible description. Most of these stories are not found in high school history books yet are influential in the development of America. Kit Carson fought Indians but also guided Fremont through the West. Elizabeth Blackwell became the first woman to receive a medical degree in America at a time when women were not even thought of as citizens. Then there is the innovative genius of the Burma Shave signs that sold shaving cream all over the country. History is a very delicate subject. The reader is at the mercy of the eye witness account of a person's actions or an event taking place. The eye witness from one side will see it one way while the person recording the event from the other side may see it differently. It is then up to the historian to decipher these varying accounts and determine what really happened. It is possible that both sides were wrong. Historians have the task of inspecting as many versions of the same story as possible to come to some reasonable expectation of what actually took place. A case in point would be the story of the Alamo. Texans tell the story as they wanted it while the Mexicans tell a story that is completely opposite. See Dequello inside. The stories in this book have been compared and researched as honestly as it is possible to do remembering that there are precious few eye witnesses left. The Life of Henry Ward Beecher ,1894 Mahomet and Islam, a sketch of the prophet's life Sir William Muir, 1887 *Historical Tales* Charles Morris, 1904 **Chambers's Journal of Popular Literature, Science and Arts** ,1876

Adopting the Track of Term: An Emotional Symphony within **Winged Prophet**

In a world eaten by displays and the ceaseless chatter of instantaneous interaction, the melodic splendor and psychological symphony created by the written term usually fade into the back ground, eclipsed by the relentless sound and disturbances that permeate our lives. However, nestled within the pages of **Winged Prophet** an enchanting literary value full of organic emotions, lies an immersive symphony waiting to be embraced. Crafted by an outstanding composer of language, this charming masterpiece conducts readers on a psychological trip, skillfully unraveling the hidden tunes and profound impact resonating within each cautiously constructed phrase. Within the depths of the touching analysis, we will investigate the book is main harmonies, analyze its enthralling writing fashion, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
