Winning Streak:

Hot Hand Alan Reifman, 2011-08-31 Upon witnessing a series of outstanding or awful performances a sports fan or announcer may wonder What are the odds of that happening In fact statisticians have shown that for the most part athletic streaks occur about as often as would be expected by random chance if one flipped a coin a thousand times one would find many streaks of several consecutive heads or tails along the way This counterintuitive finding which implies that the notion of momentum in sports is greatly overstated is certain to create a thought provoking experience for readers After a brief initial foundation on the study of streaks and relevant methods of statistical analysis Alan Reifman focuses on actual sports streaks from the famous Joe DiMaggio getting at least one hit in fifty six consecutive games in 1941 and the Los Angeles Lakers winning thirty three straight basketball games in the 1971 72 season to the less well known such as the University of Dayton men s basketball team going 0 for 24 on three point shot attempts in a 2008 game Reifman also examines psychological and physiological mechanisms in sports performance as well as implications for coaching and sport psychology practice For stats freaks and regular fans alike Hot Hand illuminates one of the most fascinating and little understood phenomena in sports
