this series **Positive Psychology** Aleksandra Kostic, Derek Chadee, 2021-04-30 POSITIVE PSYCHOLOGY Bringing together today's most prominent positive psychology researchers to discuss current themes and issues in the field Positive psychology is the scientific study of the strengths rather than the weaknesses in human thoughts feelings and behaviors For much of its history psychology has focused on the negative completely overlooking the positive attributes that allow individuals and communities to thrive Positive Psychology is a collection of essays that together constitutes a much needed theoretical rationale and critical assessment of the field This book reassesses what we already know and provides directions for the future Contributors are leading international authors including Mihaly Csikszentmihalyi Robert Sternberg Vittorio Caprara C Daniel Batson and Illona Boniwell among others These luminaries write in a way that is rigorous enough for academic use but accessible to professionals policymakers and lay audiences as well The content of Positive Psychology include both theoretical applied contributions focusing on a range of areas including altruism positive creativity science of well being forgiveness coaching for leadership cyberpsychology intelligence responding to catastrophes like COVID 19 time perspective physiological and epigenetic youth civic engagement ups and downs of love flow and good life global perspectives on positive psychology self and collective efficacy positive psychology interventions and positive orientation The book is pitched to senior undergraduates graduates academics and researchers and provides insights and perspectives into neglected and unresolved questions Brings together the latest viewpoints and research findings on positive psychology from the leading thinkers in the field Offers both theoretical and applied insights for a well rounded reference on this new and fast growing field Contains contributions from well known authors like Mihaly Csikszentmihalyi Robert Sternberg and Vittorio Caprara Appeals to academic professional and lay audiences with an interest in acquiring a profound knowledge of positive psychology No other book currently on the market addresses such a breadth of issues in positive psychology Positive Psychology represents a significant theoretical boost to this exciting field **Positive Psychology Coaching** Dr. Susanne Knowles, 2018-10-17 Coaching is an emerging profession across all walks of life Coaches work in communities businesses governments private and not for profit settings to assist people to grow personally and professionally More people are engaging their own life business career transition leadership or executive coaches to help them solve their life or work problems and reach their goals more quickly and easily Coaches are sounding boards to clients putting their agenda front and center and the clients back in control of their life The coach works nonjudgmentally with clients to understand their situation and needs help them become more self aware and resourceful uncover insights into themselves and what they need to do and stand side by side with them as they take the actions they need to take Why positive psychology coaching Because before people can change their behavior they often need to change their mind set A client's mind set may be positive and supportive of change or negative and is holding them back Coaching from a positive psychology perspective means that the coach and client are always focusing on what's right in life rather than what's wrong The coach works with the client to

identify their limiting beliefs and reframe them into positives Together they identify solutions or goals and develop action plans to achieve these outcomes Change can happen very quickly once beliefs and actions are aligned and supported by positive affirmations that boost self esteem and self efficacy Every day we try to find meaning in life and when we don't we become confused and search for answers We can look back and despair or we can look forward into a compelling future Many people neither want nor need to see a therapist or counselor and they choose to see a professional coach instead to help them resolve their situation and find greater happiness in life
