Indonesian society has been markedly accelerated by the global pandemic that has gripped the world since early 2020. Communities worldwide have transitioned their activities to virtual realms necessitating adaptability to the digital milieu across diverse sectors encompassing commerce, industry, governance, and education. This transition is marked by an increasing reliance on the digital domain, internet infrastructure, and intelligent computing systems, including artificial intelligence, which Bill Gates heralds as commensurate in impact to the advents of mobile telephony and the internet. The Age of AI has Begun 2023. The digital transformation denotes a comprehensive process wherein organizations integrate digital technology across all facets of operation, thus altering the manner in which value is delivered to Indonesian speaking constituencies. In the Indonesian context, this entails the fundamental adoption of innovative digital technologies to effect cultural and operational shifts that harmonize with evolving demands, habits, and exigencies of the Indonesian speaking populace. Significantly, this encompasses an expansive online Indonesian dictionary, the integration of information technology and the internet in the pedagogical sphere of teaching Indonesian Language and Literature, and the infusion of artificial intelligence into the educational process for Indonesian as a Second Language (BIPA). Additionally, the repository of books and reference materials in Indonesian will be transitioned to a cloud-based mode, facilitating universal accessibility. In summation, the Internet of Things (IoT) precipitates a discernible transformation in the modes of access and utilization of the Indonesian language, particularly within the domain of scientific inquiry. From the foregoing elucidation, it is underscored that Indonesian, as the official language of the Indonesian state, assumes a pivotal and strategic role in fortifying the national identity and safeguarding the enduring vitality of the language itself. In light of this, the Indonesian Language and Literature Education Study Program (PBSI) within the Faculty of Teacher Training and Education (FKIP) at the University of Islam Malang will convene the third iteration of the International Conference on Language, Literature, and Cultural Education (ICON LLCE) in September 2023, under the overarching theme of Augmenting the Role of Indonesian for the Advancement of Science and Global Civilization. This international conference, which has been ongoing since 2015, succeeds the second edition convened in November 2021. Through this imminent iteration of ICON LLCE, distinguished scholars and academics representing various global locales will convene to engage in thoughtful deliberations pertaining to initiatives aimed at safeguarding and fortifying the enduring pertinence and robustness of the Indonesian language within the ambit of forthcoming intellectual pursuits and the broader global cultural discourse.

He was married and the father of one daughter and four sons. He appears as a man of kindly character and independent thought, studious and learned. Plutarch wrote on many subjects.
