George Washington James A. Crutchfield, 2009-01-06 Between 1753 when he was commissioned as a major of Virginia militia and 1775 when the Second Continental Congress named him Commander in Chief of all colonial military forces George Washington rose from anonymity as a minor landowner and surveyor to become America's first national hero With little military training he led the thirteen fledgling colonies through six years of grueling war against formidable British forces steered the proceedings of the Constitutional Convention in Philadelphia and served two terms as the first president of the United States His accomplishments were so stunning and he was so revered that by the end of the war some of his generals urged him to install himself as king an idea he looked upon with abhorrence calling the very thought painful Nor would he consider standing for a third term as president In this revealing book James Crutchfield writes of Washington as an enigmatic man No more elusive personality exists in history as an eminent Harvard historian observed His outward commonness concealed a quick analytic mind capable of learning from mistakes gauging his successes not on winning battles but on the effect his decisions would have on the future of his country Washington remains an American hero in every definition of the word Crutchfield says He was a man who rose above the political uncertainty of the infant United States to chart its destiny for two centuries into the future

into two distinct tribes A Decade of Disruption is a timely re examination of the recent past that reveals how we ve arrived at our current era of cultural division
