Spectator Bird:

The Spectator Bird Wallace Stegner, 2017-03-21 This tour de force of American literature and a winner of the National Book Award is a profound intimate affecting novel from one of the most esteemed literary minds of the last century and a beloved chronicler of the West Joe Allston is a cantankerous retired literary agent who is in his own words just killing time until time gets around to killing me His parents and his only son are long dead leaving him with neither ancestors nor descendants tradition nor ties His job trafficking the talent of others has not been his choice He has passed through life as a spectator before retreating to the woods of California in the 1970s with only his wife Ruth by his side When an unexpected postcard from a long lost friend arrives Allston returns to the journals of a trip he has taken years before a journey to his mother's birth place where he once sought a link with his past Uncovering this history floods Allston with memories both grotesque and poignant and finally vindicates him of his past and lays bare that Joe Allston has never been quite spectator enough

A Literary History of the American West Western Literature Association (U.S.), 1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance

Utah Historians and the Reconstruction of Western History Gary Topping, 2003 Among historians of Utah and the American West few names have greater resonance than Bernard DeVoto Dale Morgan Juanita Brooks Wallace Stegner and Fawn Brodie Each of these writers made enduring contributions not only to our knowledge of the American West but also to our view of the region and its history In many ways their writing set the standard for scholarship and interpretation and their influence is still felt today Yet they were not flawless As Gary Topping explains in this the first comprehensive appraisal of their work each had serious shortcomings DeVoto and Stegner master storytellers distorted their histories with excessive use of literary and artistic techniques Morgan the thorough researcher failed to see larger contexts and interpretive possibilities Brooks courageous in finding damning new information on the Mountain Meadows massacre stopped short of drawing conclusions that might alienate her from her fellow Mormons and Brodie psychobiographer extraordinaire nonetheless succumbed to reading too much into the lives of her subjects based on her own emotions and conflicts All five writers experienced Mormon Utah in the formative stages of their lives and whether they wanted to or not fashioned their work on the American West under that indelible influence Topping shows ultimately how despite weaknesses each created exemplary models of diligent research and narrative elegance while establishing new traditions in western historical scholarship
