Richard Davis

Spectrum Of Responsibility:

The Spectrum of Responsibility Peter A. French, 1991-01-01 *FCC Record* United States. Federal Communications Commission, 2003 [Leading Beyond Change](#) Michael Sahota, Audree Tara Sahota, 2021-08-23 This guide shows readers how to transform a traditional organization into an evolutionary one with a framework and mindset that offer a new way of leading and approaching change Now more than ever society is demanding change and organizations are being asked to shift into more conscious and agile business practices Yet most of what people believe about leadership effective workplaces and how to create lasting change is either incomplete or outright incorrect And even if the desire to change is there understanding of how to achieve it is elusive This book holds the key It introduces the Shift Evolutionary Leadership Framework SELF which helps leaders create the understanding and application needed to evolve high performance At the core of the book are dozens of business patterns that cut across seven dimensions of organizational functioning The traps of traditional organizations are contrasted with the high performance practices of evolutionary organizations Authors Michael Sahota and Audree Tara Sahota explain the steps of leading beyond change evolving beyond servant leadership to make the inner shift needed to unlock the practical skills and techniques Whether readers call this shift business agility Teal Agility evolutionary or the future of work it is possible to create high performing organizations filled with energized people who are able to surf the waves of change

Hamas, Popular Support and War in the Middle East Richard Davis, 2016-02-05 This book offers a new understanding of the nature of power seeking insurgent groups by empirically examining the use of violence by Hamas in the Palestinian Israeli Conflict Though Hamas has learned to ride the tides of popular support it remains suspended between its quest to achieve the values of its ardent supporters reclamation of land through force and the desire to grow popular support This tension is reflected in how and when the group exercises violent resistance The theoretical framework applied in this volume provides a simple construct to understand the dynamics that result in use and non use of violence under changing environmental conditions by Hamas but could be applied more broadly to other power seeking insurgent groups including ISIL The book weaves together the dynamics between violent actions and internal and external influences on Hamas including expressed values of the group Palestinian popular support measures leaders personalities and innovation weapons and tactics Israeli influence and targeted killings peace processes and conflicts in Gaza Syria Iraq and Egypt With newly assembled datasets on Hamas violent acts and public statements Israeli Targeted Killings historical measures of popular support and extensive field interviews the book offers a fresh perspective on insurgent group violence by demonstrating under what conditions the group exercises violence or refrains from doing so This book will be of much interest to both policy makers and students of the Arab Israeli conflict political violence Middle Eastern politics security studies and international relations in general
