The Arts Music:

The Art of Music Patrick Coleman,2015-01-01 The Art of Music takes the relationship between two of the more prominent and oft intersecting branches of artistic creation as its subject The liaison between music and the visual arts has inspired countless generations of artists The two have had manifold complex interactions across all periods of history in Western and non Western contexts alike yet their intersection has only become a rich vein for research by art historians and musicologists in the last thirty years By tracing these relationships new insights into the affinities of the arts become clear

Oghenemudiakewe Igbi,2025-04-22 Nigeria brims with an array of art musicians who have endeavoured to create and perform art music using traditional compositional nuances and performance practices In a clime where other musical styles seem to thrive more than art music Nigerian composers are always on the lookout for fresh ideas and techniques in their creative endeavours in pursuance of sundry objectives As a dynamic art music composition and performance continue to evolve and offer themselves to an extensive range of creative dimensions Hence it becomes imperative to be acquainted with such emerging trends in furtherance of the course for the actualisation of an authentic Nigerian art music identity The book is a compendium of twenty one articles by eminent Nigerian music scholars Divided into three sections the book is not only targeted at illuminating the minds of its readers but is also a scholarly literature that interrogates and unearths some of the

emerging developments in the field of music The chapters contained herein dwell on a variety of issues in the art from different viewpoints of art music composition composers art music performance or practices African music popular music and music education

A Theory of Virtual Agency for Western Art Music Robert S. Hatten,2018-09-06 In his third volume on musical expressive meaning Robert S Hatten examines virtual agency in music from the perspectives of movement gesture embodiment topics tropes emotion narrativity and performance Distinguished from the actual agency of composers and performers whose intentional actions either create music as notated or manifest music as significant sound virtual agency is inferred from the implied actions of those sounds as they move and reveal tendencies within music stylistic contexts From our most basic attributions of sources for perceived energies in music to the highest realm of our engagement with musical subjectivity Hatten explains how virtual agents arose as distinct from actual ones how unspecified actants can take on characteristics of virtual human agents and how virtual agents assume various actorial roles Along the way Hatten demonstrates some of the musical means by which composers and performers from different historical eras have staged and projected various levels of virtual agency engaging listeners imaginatively and interactively within the expressive realms of their virtual and fictional musical worlds

The Ethnomusicology of Western Art Music Laudan Nooshin,2013-10-23 Since the late 1980s the boundaries between the musicologies have become increasingly blurred Most notably a growing number of musicologists have become interested in the ideas and methodologies of ethnomusicology and in particular in applying one of the central methodological tools of ethnomusicology ethnography to the study of Western art music a tradition which had previously been studied primarily through scores recordings and other historical sources Alongside this since the 1970s a small number of ethnomusicologists have also written about Western art music thus complicating the idea of ethnomusicology as the study of other music Indeed there has been a growth in this area of scholarship in recent years Approaching western art music through the perspectives of ethnomusicology can offer new and enriching insights to the study of this musical tradition as shown in the writings presented in this book The current volume is the first collection of essays on this topic and includes work by authors from a range of musicological and ethnomusicological backgrounds exploring a variety of issues including music in orchestral outreach programmes new audiences for classical music concerts music and conflict transformation ethnographic study of the rehearsal process and the politics of a high profile music festival This book was originally published as a special issue of *Ethnomusicology Forum*

Music, the Arts and Ideas Leonard B.. Meyer,1994 *The Aesthetics of Imperfection in Music and the Arts* Andy Hamilton,Lara Pearson,2020-10-01 The aesthetics of imperfection emphasises spontaneity disruption process and energy over formal perfection and is often ignored by many commentators or seen only in improvisation This comprehensive collection is the first time imperfection has been explored across all kinds of musical performance whether improvisation or interpretation of compositions Covering music visual art dance comedy architecture and design it addresses the meaning experience and value of improvisation and spontaneous

creation across different artistic media A distinctive feature of the volume is that it brings together contributions from theoreticians and practitioners presenting a wider range of perspectives on the issues involved Contributors look at performance and practice across Western and non Western musical artistic and craft forms Composers and non performing artists offer a perspective on what is imperfect or improvisatory within their work contributing further dimensions to the discourse The Aesthetics of Imperfection in Music and the Arts features 39 chapters organised into eight sections and written by a diverse group of scholars and performers They consider divergent definitions of aesthetics employing both 18th century philosophy and more recent socially and historically situated conceptions making this an essential up to date resource for anyone working on either side of the perfection imperfection debate

Samuel Beckett and the Arts Lois Oppenheim, 2022-11-15 This book first published in 1999 addresses Beckett's visual and musical sensibilities and examines his visionary use of such diverse modes of creative expression as stage radio television and film when his medium was the written word The first section of the book focuses on music the second part analyses the visual arts and the third part examines film radio and television This book uncovers aspects of his thinking on and use of the arts that have been little studied including the nonfigurative function of music and art in Beckett's work the collaborations undertaken by composers painters and choreographers with his texts the relation of his literary to his visual and musical artistry and his use of film radio and television as innovative means and celebration of artistic process

Music, Art and Performance from Liszt to Riot Grrrl Diane V. Silverthorne, 2018-10-18 A 2019 Choice Outstanding Academic Title Opening with an account of print portraiture facilitating Franz Liszt's celebrity status and concluding with Riot Grrrl's noisy politics of feminism and performance this interdisciplinary anthology charts the relationship between music and the visual arts from late Romanticism and the birth of modernism to postmodernism while crossing from Western art to the Middle East Focused on music as a central experience of art and life these essays scrutinize the musicalisation of art focusing on the visual and performing arts and detailing significant instances of intra art relations between c 1840 and the present day Essays reflect on the aesthetic relationships of music to painting performance and installation sound and silence time and space The insistent influence of Wagner is considered as well as the work and ideas of Manet Satie and Cage Thomas Wilfred La Monte Young and Eliasson What distinguishes these studies are the convictions that music is never alone and that a full understanding of the isms of the last two hundred years is best achieved when music's influential presence in the visual arts is acknowledged and interrogated

The Art of Re-enchantment Nick Wilson, 2013-10-25 In the late 1960s a new movement emerged championing historically informed authentic approaches to performance Heard today in concert halls across the world and in

a library's worth of recordings it has completely transformed the way in which we listen to old music while revolutionizing the classical music profession in the process. Yet the rise of Early Music has been anything but uncontroversial. Historically informed performance (HIP) has provoked heated debate amongst musicologists, performers, and cultural sociologists. Did HIP's scholar-performers possess the skills necessary to achieve their uncompromising agenda? Was interest in historically informed performance just another facet of the burgeoning heritage industry? And was the widespread promotion of early music simply a commercial ruse to make money put forward by profit-driven record companies? In *The Art of Re-enchantment: Making Early Music in the Modern Age*, author Nick Wilson answers these and other questions through an in-depth analysis of the early music movement in Britain from the 1960s to the present day. While other books have examined the history of early music's revival, this interdisciplinary study is unique in its focus on how various constituencies actually made their living from the early music business. Through chapters discussing the professionalization of early music, the influence of institutions such as the BBC and record companies, and the entrepreneurial role of leading early music pioneers, this book will shed new light on one of the most fascinating and influential movements in 20th-century art music. *The Art of Re-enchantment* begins a much-needed conversation about the true value of art and authenticity today. This volume is a must-have for early music fans and performers, music historians, and musicologists with an interest in performance practice and anyone interested in the production, distribution, and consumption of music.
