Gans, 1967 *Empire's Nature* Amy R. W. Meyers, Margaret Beck Pritchard, 2012-12-01 Completed in 1747 Mark Catesby's *Natural History of Carolina Florida and the Bahama Islands* was the first major illustrated publication on the flora and fauna of Britain's American colonies Together with his *Hortus Britanno Americanus* 1763 which detailed plant species that might be transplanted successfully to British soil Catesby's *Natural History* exerted an important though often overlooked influence on the development of art natural history and scientific observation in the eighteenth century Inspired by a major traveling exhibition of Catesby's watercolor drawings from the Royal Library Windsor Castle this collection of interdisciplinary essays considers Catesby's endeavors as a naturalist artist scientific explorer experimental horticulturist ornamental gardener and early environmental thinker in terms of the interests held by the various overlapping communities in which he functioned particularly as those interests related to the British colonial enterprise The contributors are David R Brigham Joyce E Chaplin Mark Laird Amy R W Meyers Therese O Malley and Margaret Beck Pritchard **Expanding the American Dream** Barbara M. Kelly, 1993-02-02 Much has been written about the housing policies of the Depression and the Postwar period Much less has been written of the houses built as a result of these policies or the lives of the families who lived in them Using the houses of Levittown Long Island as cultural artifacts this book examines the relationship between the government sponsored mass produced housing built after World War II the families who lived in it and the society that fostered it Beginning with the basic four room slab based Cape Cods and Ranches Levittown homeowners invested time and effort barter and money in the expansion and redesign of their houses The author shows how this gradual process has altered the socioeconomic nature of the community as well bringing Levittown fully into the mainstream of middle class America This book works on several levels For planners it offers a reassessment of the housing policies of the 1940s and 50s suggesting that important lessons

remain to be learned from the Levittown experience For historians it offers new insights into the nature of the suburbanization process that followed World War II And for those who wish to understand the subtle workings of their own domestic space within their lives it offers food for speculation
