**Divinity** Paul Mukendi, 2016-11-17 No book has ever attempted to deal with the subject of divinity in its entirety Here at long last is a comprehensive book dealing with divine beings in its complexity It provides the reader with accurate and insightful knowledge concerning the concept of divinity The author gives a clear explanation of the Triune nature of God God is one being manifest and existing in three distinct identities or persons which is further discussed as being comparable with the makeup of a human being God shares his divine nature with spiritual beings in the heavens with angels and on earth with humankind The divine nature of God resides in all spirits Therefore men have Gods nature in their spirits they can communicate with and receive the things of the spiritual realm Through sin humanity has lost the nature of God for all have sinned and fall short of the glory of God The purpose of the Bible is to spiritualize humankind because we have fallen short of the glory of God The broad focus of this book is to bring as many believers to a stage of maturity in the knowledge of Christ

*Catalogue* Maggs Bros, 1920 **Spirits in Transcultural Skies** Niels Gutschow, Katharina Weiler, 2014-11-26 The volume investigates the visualization of both ritual and decorative aspects of auspiciousness and protection in the form of celestial characters in art and architecture In doing so it covers more than two and a half millennia and a broad geographical area documenting a practice found in nearly every corner of the world Its transcultural approach aims at gaining insights into cultural dynamics and consistent networks and defining new historical mindmaps it examines reciprocal effects and aspects of interwovenness in art and architecture with a view to reconceptualizing their established realms The collection opens a window on a phenomenon in the history of art and architecture that has never before been considered from this perspective The book focuses on a transcultural iconography of aerial spirits goddesses and gods in art history pursuing a methodologically innovative approach in order to redefine and develop the practice of identification and classification of motifs as a means to understanding meaning and attempting to challenge the categories defined by academic disciplines
