Insects, Birds, Men ... Drawings by Kenneth Gosner Blanche STILLSON,1955 **Reports** Civil Aeromedical Research Institute (U.S.),1962 **Like Sex with Gods** Bayla Singer,2003

Human flight is not a simple matter of science and technology It is a continuing epic of dreams and obsession of yearning and striving to harness the intellect in the service of the emotions In *Like Sex with Gods An Unorthodox History of Flight* Bayla Singer offers a unique approach to humanity s fascination with flying Rather than merely tracing the factual prehistory of flight up to the success of the Wright Brothers

Bayla Singer considers the interaction and influence of our dreams fantasies culture and technology on the age old quest to fly This enlightening study begins with the deities and other denizens of the heavens that humanity has created in its religion literature and art At first a monopoly of the gods flight came to interest humanity as a way to free itself from the physical and intellectual bonds of the earth The myth of flight eventually gives way to the pursuit of actual flight Singer shows in compelling detail the many flying machines that have been created including balloons gliders and kites The accomplishment of the Wright Brothers and our successful trips into space are merely stops on a continuing journey as our ancient dream of flight continues to push us to new and loftier places Filled with compelling stories and detailed illustrations this book provides absorbing reading for aviation experts those fascinated with the intimate relationship between technology and culture and all of us who have even a passing interest in flying

The History of Man-Powered Flight D. A. Reay,2014-05-18
 The History of Man Powered Flight provides a comprehensive history of man powered aircraft This book discusses the flight in early civilizations Leonardo da Vinci a scientist among skeptical philosophers formation of the Man Powered Aircraft Committee at Cranfield Kremer Competition catalyst for worldwide activity and the first entrant and United Kingdom Miscellany of the 1960s The topics on man powered rotorcraft and the persistence of the bird men Toucan and other machines and future prospects on man powered flight are also deliberated in this text This publication is intended for experts in the field of aeronautics but is also beneficial to students and individuals interested in aviation
