Winning And Losing:

Games, Sports, and Play Thomas Hurka, 2019-09-05 This volume presents new philosophical essays on a topic that has been neglected in most recent philosophy: games, sports, and play. Some contributions address conceptual questions about what games and sports have in common and that distinguishes them from other activities; here many take their start from Bernard Suits's celebrated analysis of game playing in his book *The Grasshopper* and either elaborate it or propose an alternative to it. Other essays discuss normative issues that arise within games and sports, such as about fairness for example in the treatment of male and female athletes. Yet others consider broader evaluative questions about the value of games and sports, which some see as enabling the display of distinctive excellences. *Games, Sports, and Play* includes a posthumous essay by Suits defending his claim in *The Grasshopper* that life in utopia would consist primarily in playing games. The volume's chapters approach the topic of games, sports, and play from different angles but always in the belief that there is rich terrain here for philosophical investigation.

Trend Following with Managed Futures Alex Greyserman, Kathryn Kaminski, 2014-08-26 An all-inclusive guide to trend following. As more and more savvy investors move into the space, trend following has become one of the most popular investment strategies. Written for investors and investment managers, *Trend Following with Managed Futures* offers an insightful overview of both the basics and theoretical foundations for trend following. The book also includes in-depth coverage of more advanced technical aspects of systematic trend following. The book examines relevant topics such as trend following as an alternative asset class, benchmarking, and factor decomposition. Applications for trend following in an investment portfolio and many more. By focusing on the investor perspective, *Trend Following with Managed Futures* is a groundbreaking and invaluable resource for anyone interested in modern systematic trend following.

Journal of the Royal Statistical Society Royal Statistical Society (Great Britain), 1910. Published papers whose appeal lies in their subject matter rather than their technical statistical contents. Medical, social, educational, legal, demographic, and governmental issues are of particular concern.

This book puts numerical methods in action for the purpose of solving practical problems in quantitative finance. The first part develops a toolkit in numerical methods for finance. The second part proposes twenty self-contained cases covering model simulation, asset pricing, and hedging, risk management, statistical estimation, and model calibration. Each case develops a detailed solution to a concrete problem arising in applied financial management and guides the user towards a computer implementation. The appendices contain crash courses in VBA and Matlab programming languages.
