Wire Mesh Mothers Elizabeth Massie, 2015-03-26 It all started with the best of intentions Kate McDolen an elementary school teacher knew she had to protect one of her students little 8 year old Mistie from parents who were making her life a living hell So Kate packed her bags quietly picked up Mistie after school one day and set off with her toward what she thought would be a new life How could she know she was driving headlong into a nightmare The nightmare began when Tony jumped into the passenger seat of Kate s car waving a gun Tony was a dangerous girl more dangerous than anyone could have dreamed She didn t admire anything except violence and cruelty and she had very different plans in mind for Kate and little Mistie The cross country trip that followed would turn into a one way journey to fear desperation and madness *The Spiritual Anatomy of Emotion* Michael A. Jawer, 2009-05-21 A cutting edge examination of feelings not thoughts as the gateway to understanding consciousness Contends that emotion is the greatest influence on personality development Offers a new perspective on immunity stress and psychosomatic conditions Explains how emotion is key to understanding out of body experience apparitions and other anomalous perceptions Contemporary science holds that the brain rules the body and generates all our feelings and perceptions Michael Jawer and Dr Marc Micozzi disagree They contend that it is our feelings that underlie our conscious selves and determine what we think and how we conduct our lives The less consciousness we have of our emotional being the more physical disturbances we are likely to have from ailments such as migraines fibromyalgia chronic fatigue and post traumatic stress to anomalous perceptions such as apparitions and involuntary out of body experiences Using the latest scientific research on immunity sensation stress cognition and emotional expression the authors demonstrate that the way we process our feelings provides a key to who is most likely to experience these phenomena and why They explain that emotion is a portal into the world of extraordinary perception and they provide the studies that validate the science behind telepathic dreams poltergeists and ESP *The Spiritual Anatomy of Emotion* challenges the prevailing belief that the brain must necessarily rule the body Far from being by products of neurochemistry the authors show that emotions are the key vehicle by which we can understand ourselves and our interactions with the world around us as well as our most intriguing and perennially baffling experiences **In the Likeness of God** Philip Yancey, Paul Brand, 2010-10-05 The human body is a likeness of God its design revealing insights into the church the body of Christ For bestselling author Philip Yancey the late Dr Paul Brand the brilliant hand surgeon who devoted his life to the poorest people of India and Louisiana was also a likeness of God living the kind of Christian life that exemplified what God must have had in mind *In the Likeness of God* combines the complete texts of *Fearfully and Wonderfully Made* and *In His Image* both Gold Medallion Award winners which together have sold more than half a million copies into one volume Also included for the first time are eight beautiful litanies of praise on the human body by Dr Brand In *Fearfully and Wonderfully Made* Dr Paul Brand and bestselling writer Philip Yancey explore the wonder of the human body and uncover the eternal statements that God has
