Red Inc. Robert K. Schaeffer,2015-11-17 Red Inc takes issue with the view that economic development will eventually promote democracy It outlines in detail the enormous social costs of the rapid rise of China s economy Although many observers argue that Deng Xiaoping introduced capitalism to China in the late 1970s Schaeffer believes that capitalist development really began during the 1950s under Mao Zedong But although Mao made relentless efforts to generate the capital needed to finance economic development his regime failed to promote any real growth Schaeffer shows that the remarkable rise of its economy in recent years has provided China with new and often corrupt sources of wealth and power that have enabled it to resist democracy He brings into sharp focus the consequence of the regime s uncompromising approach to capital accumulation
