needs to stake his future But Berniece refuses to sell clinging to the piano as a reminder of the history that is their family legacy This dilemma is the real piano lesson reminding us that blacks are often deprived both of the symbols of their past and of opportunity in the present

Folklore and Ethnology of the Modern World Simon J. Bronner,2025-12-29 In Folklore and Ethnology of the Modern World Simon Bronner identifies cultural engagements that people use to reconcile tradition and modernity and confront the anxieties of the present by bringing together the past often represented by tradition and the immediate digital unreal future These socially bounded symbol laden practices integrate ritual play narrative and object with the instrumental purpose of confronting paradoxes and tensions of modern life They provide the basis for a theory of how people cope culturally with change that appears to be outside of their control Bronner explains the social and psychological complexities of cultural engagements with case studies from different parts of the world connected by their often politicized clash between tradition and modernity The book explains the growth of strongman contests invoking mythology the evolving meaning of Chinese puzzle balls the responses to suppression of naval hazing traditions in Europe and America the ubiquitous infusion of magical thinking into email practices the meme diplomacy in the border wars between India and Pakistan and the projection of conflict onto cricket matches and the global implications of the rise of algorithmic folklore in an AI future This clear and accessible book is an essential read for anyone approaching the ethnological study of folklore and its interaction with modern society and culture
